<b><u>Subject</u></b>	<b><u>Time</u></b>	<b><u>Activity</u></b>	<b><u>Tick once completed</u></b>
<b><u>w/b 22.6.20</u></b>		<b>Theme: Superheroes (link to <i>Supertato</i> by Sue Hendra and Paul Linnet). (2)</b> (Some of these ideas have been adapted from the White Rose Maths home learning for EYFS)	
Reading	10 mins daily.	<b>Read</b> your books and complete your reading record. Refer to the Oxford Owl link for a wide range of books for different abilities.	
Reading	20 mins daily	Continue to enjoy <b>sharing stories</b> with your parents and we really hope that you enjoyed the story of <b><i>Supertato</i></b> by Sue Hendra and Paul Linnet which is still on Tapestry, read by Miss Jones. Can you remember where the story was <b>set</b> ? Why do you think it was set in a supermarket? Can you think about where other stories that you may have read were set, what about The Tiger who came to Tea or Goldilocks? Can you think about stories set under the sea or in a cold place? Where is your favourite story set?	
Phonics	10 mins daily	After accessing the <b>phonics</b> lessons that have been set for you on our Facebook Phonics (Facebook Group Name: Eversley Primary School Reception 2020) page Monday and Thursday at 10am, revise the sounds that have been taught. Continue to practice forming letters and sounds correctly according to the rhymes learned and listen out for the daily challenges set for that sound!  <b><u>Extra challenge:</u></b> Why not imagine that the Evil Pea is on the loose and you have to make a poster to warn people and to ask them to look out for him. You could draw a picture of the pea on the top and then write some sentences about the pea so that people know what to look out for. Remember to describe him well and suggest what they should do if they see him!  Have you got a favourite superhero? Can you draw a picture of him or her and write about why they are your favourite and what their powers are?  As well as Miss Cookson's phonics session (Explained above), <b>Read Write Inc (RWI)</b> are offering daily phonics lessons on You Tube. These are split into different ability groups to

		<p>cater for the varying needs of the children. The first sounds are set 1 (individual sounds, s, m, a, d, etc) and the others are set 2 (which Miss Cookson is also teaching each Monday and Thursday). Set 3 are for Year One pupils, therefore, please do not access these as this could confuse the children. The videos remain on the website for 24 hours if you would like to log on and watch/take part at different points in the day.</p> <ul style="list-style-type: none"><li>➤ Daily phonics set 1 : 9.30am Monday-Friday</li><li>➤ Daily phonics set 2: 10.00am Monday-Friday</li></ul> <p>The link for the RWI You tube Channel where the lessons appear is: <a href="https://www.youtube.com/channel/UCo7fbLgY2oA_cFCIq9GdxtQ">https://www.youtube.com/channel/UCo7fbLgY2oA_cFCIq9GdxtQ</a> You will need to subscribe to view.</p>	
Mathematics	10 mins daily	<p><b>Problem solving</b>– As you have been working so hard with your numbers you can now start to apply what you have learned to solving problems. We have suggested some below to start you off and you can ask a grown up to come up with more challenges once you have completed these. You can choose how to record your work, using number sentences if you prefer. Your grown up can also change the numbers in the problems if you want to work with higher values:</p> <p>Supertato needs lots of helpers to enable him to catch the Pea! He already has 7 but needs 5 more. How many will he then have altogether?</p> <p>When they ran through the supermarket, the veggies knocked over 10 cans. After they ran by, another 4 wobbled and fell down. What was the total number of cans that fell?</p> <p>There were 6 cakes on the shelf and another 4 were added. How many cakes were there altogether? (Use your number bond facts for this one!)</p> <p>Supertato had 8 vegetable friends to help him. The Pea trapped 5. How many were left to help the hero?</p> <p>There were 10 cakes on the shelf and 5 were taken away. How many cakes were left? (Use your number bond facts for this one!)</p> <p>In the supermarket the cheese cost 10p and the cake cost 2p. How much is this in total? (You could use your dot coins to help with this.)</p>	

**22.6.2020**

**Reception Home Timetable**

		Please come up with lots of your own worded problems (and solutions!) Have fun exploring number!	
Physical Education	30 mins daily	How did you get on working on your superhero movements last week? Now that you have practised lots of ideas why not put your moves together in a sequence and put them to music? Ask a grown up to find appropriate music and listen to the beat, do you have to move fast or slow? Do you speed up in time to the music at some points? Do you repeat certain movements? Have fun choreographing your dances!	
Personal, Social and emotional development	30 mins daily	In the story of <b>Supertato</b> by Sue Hendra and Paul Linnet, Supertato is a hero who loves to help people. Can you think of a time when you were really helpful to someone who needed assistance?	
Understanding the world	20 mins daily	<p>Why not explore freezing and melting. You could 'trap' some vegetables by asking a grown up to help you freeze some in different sized containers and then investigate how the ice melts. Are there things that help speed up the process? Will they melt faster in the sun or in the fridge? Perhaps predict what will happen first, record your prediction and then time how long each takes to melt. You could write about what happened and whether your prediction was correct.</p> <p>Just like in the story Supertato traps the Evil Pea in some jelly. How about choosing your favourite flavour and make a jelly? Ask a grown up to help measure out the hot water and pour over the cubes of jelly. As you stir them what can you see happening? What happens when you cool it in the fridge?</p>	
Expressive arts and design	½ hour per day	<p>Can you design a trap for the Pea? You can be as creative as you like, making it out of junk modelling, <i>Lego</i> or by drawing one. Why not write a set of instructions as to how your trap would work?</p> <p>Design your own superhero costume! Can you make a mask, a cloak? What is your superhero name, Captain Kindness perhaps! You could imagine all of the wonderful things that you could do if you were a superhero, what would be your special power?</p>
