Annual whole school training/update		September 2022/January 2023
Regular updates		Through weekly briefings/emails/staff meetings
Date of last 3 Year whole school training		3 rd September 2020

1. Aims

The school aims to ensure that:

Appropriate action is taken in a timely manner to safeguard and promote children’s welfare

All staff are aware of their statutory responsibilities with respect to safeguarding

Staff are properly training in recognising and reporting safeguarding issues

all our staff are clear about the necessary actions with regard to a child protection issue.

All staff support the child’s development in ways that will foster security, confidence and independence

We raise whole staff awareness of the need to safeguard children.

We ensure staff are aware of their responsibilities in identifying and reporting possible cases of abuse – developing an ongoing culture of vigilance.

We provide a systematic means of monitoring children known or thought to be at risk of harm.

We identify pupils who may benefit from ‘Early Help’.

We ensure effective communication between all staff on child protection issues.

We maintain a structured procedure which is followed by all members of the school community where abuse is suspected.

We ensure clear procedures for reporting concerns are in place.

We understand the wider environmental factors in a child’s life that may be a threat to their safety and/or welfare.

We emphasise the need for good levels of communication between all members of staff.

We develop and promote effective working relationships with other agencies, especially our

safeguarding partners the local authority (Tony Theodoulou, Executive Director -Enfield), NHS Enfield Clinical commissioning group (Aimee Fairbairn, Director) & Metropolitan Police Service - Haringey & Enfield (Treena Fleming, Detective Chief Superintendent)

2. Legislation and statutory guidance

This policy is based on the Department for Education's statutory guidance [Keeping Children Safe in Education \(2021\)](#) and [Working Together to Safeguard Children \(2018\)](#), and the [Governance Handbook](#). We comply with this guidance and the arrangements agreed and published by our 3 local safeguarding partners.

This policy is also based on the following legislation:

[The Children Act 1989](#) (and [2004 amendment](#)), which provides a framework for the care and protection of children

Section 5B(11) of the Female Genital Mutilation Act 2003, as inserted by section 74 of the [Serious Crime Act 2015](#), which places a statutory duty on teachers to report to the police where they discover that female genital mutilation (FGM) appears to have been carried out on a girl under 18

[Statutory guidance on FGM](#), which sets out responsibilities with regards to safeguarding and supporting girls affected by FGM

[The Rehabilitation of Offenders Act 1974](#), which outlines when people with criminal convictions can work with children

Schedule 4 of the [Safeguarding Vulnerable Groups Act 2006](#), which defines what 'regulated activity' is in relation to children

[Statutory guidance on the Prevent duty](#), which explains schools' duties under the Counter-Terrorism and Security Act 2015 with respect to protecting people from the risk of radicalisation and extremism

The [Childcare \(Disqualification\) and Childcare \(Early Years Provision Free of Charge\) \(Extended Entitlement\) \(Amendment\) Regulations 2018](#) (referred to in this policy as the "2018 Childcare Disqualification Regulations") and [Childcare Act 2006](#), which set out who is disqualified from working with children

This policy also meets requirements relating to safeguarding and welfare in the [statutory framework for the Early Years Foundation Stage](#)

This policy also complies with our funding agreement and articles of association.

3. Definitions

Safeguarding and promoting the welfare of children means:

Protecting children from maltreatment

Preventing impairment of children's mental and physical health or development

Ensuring that children grow up in circumstances consistent with the provision of safe and effective care

Taking action to enable all children to have the best outcomes

Child protection is part of this definition and refers to activities undertaken to prevent children suffering, or being likely to suffer, significant harm.

Abuse is a form of maltreatment of a child, and may involve inflicting harm or failing to act to prevent harm. Appendix 1 explains the different types of abuse.

Neglect is a form of abuse and is the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Appendix 1 defines neglect in more detail.

Sharing of nudes and semi-nudes (also known as sexting or youth produced sexual imagery) is where children share nude or semi-nude images, videos or live streams.

Children includes everyone under the age of 18.

The following 3 **safeguarding partners** are identified in Keeping Children Safe in Education (and defined in the Children Act 2004, as amended by chapter 2 of the Children and Social Work Act 2017). They will make arrangements to work together to safeguard and promote the welfare of local children, including identifying and responding to their needs:

The local authority (LA)

A clinical commissioning group for an area within the LA

The chief officer of police for a police area in the LA area

We develop and promote effective working relationships with other agencies, especially our

safeguarding partners the local authority (Tony Theodoulou, Executive Director -Enfield), NHS

Enfield Clinical commissioning group (Aimee Fairbairn, Director) & Metropolitan Police Service -

Haringey & Enfield (Treena Fleming, Detective Chief Superintendent)

4. Equality statement

Some children have an increased risk of abuse, and additional barriers can exist for some children with respect to recognising or disclosing it. We are committed to anti-discriminatory practice and recognise children's diverse circumstances. We ensure that all children have the same protection, regardless of any barriers they may face.

We give special consideration to children who:

Have special educational needs (SEN) or disabilities or health conditions (see section 10)

Are young carers

May experience discrimination due to their race, ethnicity, religion, gender identification or sexuality

Have English as an additional language

Are known to be living in difficult situations – for example, temporary accommodation or where there are issues such as substance abuse or domestic violence

Are at risk of FGM, sexual exploitation, forced marriage, or radicalisation

Are asylum seekers

Are at risk due to either their own or a family member's mental health needs

Are looked after or previously looked after (see section 12)

Are missing from education

Whose parent/carer has expressed an intention to remove them from school to be home educated

5. Roles and responsibilities

Safeguarding and child protection is **everyone's** responsibility.

We facilitate a whole school approach to safeguarding. This means we ensure safeguarding and child protection is at the **forefront** and **underpins** all relevant aspects of process and policy development. Ultimately, all systems, processes and policies operate with the **best interests** of the child at their heart.

This policy applies to all staff, volunteers and governors in the school and is consistent with the procedures of the 3 safeguarding partners. Our policy and procedures also apply to extended school and off-site activities.

5.1 All staff

All staff at Eversley Primary School will read and understand part 1 and annex A of the Department for Education's statutory safeguarding guidance, [Keeping Children Safe in Education](#), and review this guidance at least annually.

All staff will sign a declaration at the beginning of each academic year to say that they have reviewed the guidance.

All staff will be aware of:

Our systems which support safeguarding, including this child protection and safeguarding policy, the staff behaviour policy/code of conduct, the role and identity of the designated safeguarding lead (DSL) and deputies, the behaviour policy, the online safety policy and the safeguarding response to children who go missing from education

Our staff code of conduct (Enfield model policy) includes the following:

Reporting all concerns even low-level concerns using referral system,

Allegations against staff

Whistleblowing

Acceptable use of technologies (including the use of mobile devices), staff/pupil relationships and communications including the use of social media.

The early help process (sometimes known as the common assessment framework) and their role in it, including identifying emerging problems, liaising with the DSL, and sharing information with other professionals to support early identification and assessment

The process for making referrals to local authority children's social care and for statutory assessments that may follow a referral, including the role they might be expected to play

What to do if they identify a safeguarding issue or a child tells them they are being abused or neglected, including specific issues such as FGM, and how to maintain an appropriate level of confidentiality while liaising with relevant professionals

The signs of different types of abuse and neglect, as well as specific safeguarding issues, such as child-on-child abuse, child sexual exploitation (CSE), child criminal exploitation (CCE), indicators of being at risk from or involved with serious violent crime, FGM and radicalisation

The importance of reassuring victims that they are being taken seriously and that they will be supported and kept safe

That children may not feel ready or know how to tell someone they're being abused, exploited or neglected, and/or they might not recognise their experiences as harmful. Children may feel embarrassed, humiliated or threatened due to their vulnerability, disability, sexual orientation and/or language barriers. None of this should stop staff from having a 'professional curiosity' and speaking to the DSL

- The importance of how to use the terms 'victim', 'alleged perpetrator' and 'perpetrator':
- 'Victim' is a widely understood and recognised term, but not everyone who has been subjected to abuse considers themselves a victim, or would want to be described that way. Staff should be prepared to use any term the child feels most comfortable with when managing an incident
- 'Alleged perpetrator(s)' and 'perpetrator(s)' are widely used and recognised terms, but Eversley staff should think carefully about what terminology to use (especially in front of children), as in some cases, abusive behaviour can be harmful to the perpetrator too. Staff should decide what's appropriate and which terms to use on a case-by-case basis

If staff have a safeguarding concern/allegation about another staff member (including supply staff, volunteers and contractors) that doesn't meet the harm threshold, then they should share it in accordance with our usual reporting system- **Share your 'professional curiosity' with the Head teacher.**

All staff should be aware that children may not feel ready or know how to tell someone that they are being abused, exploited, or neglected, and/or they may not recognise their experiences as harmful. For example, children may feel embarrassed, humiliated, or are being threatened. This could be due to their vulnerability, disability and/or sexual orientation or language barriers. This should not prevent staff from having a professional curiosity and speaking to the designated safeguarding lead (DSL) if they have concerns about a child.

It is also important that staff determine how best to build trusted relationships with children and young people which facilitate communication. At Eversley staff use their professional curiosity, talk openly to the children, build positive relationships built on trust and understanding.

WHOLE SCHOOL APPROACH TO PREVENTATIVE EDUCATION

Our safeguarding policies and procedures are transparent, clear, and easy to understand for staff, pupils, students, parents, and carers. Systems are in place, and they are well promoted, easily understood and easily accessible for children to confidently report, any form of abuse or neglect, knowing their concerns will be treated seriously, and knowing they can safely express their views and give feedback.

This is in the context of a whole-school approach to preparing pupils for life in modern Britain and a culture of zero tolerance to sexism, misogyny/misandry, homophobia, biphobic and sexual violence/harassment. This will be underpinned by:

- Our positive behaviour policy
- Anti-bullying strategy
- Child on child abuse policy
- A pastoral support system
- A planned programme of relationships, sex and health education (RSHE), which is inclusive and delivered regularly, tackling issues such as:
 - Healthy and respectful relationships
 - Boundaries and consent
 - Stereotyping, prejudice and equality
 - Body confidence and self-esteem
 - How to recognise an abusive relationship (including coercive and controlling behaviour)
 - The concepts of, and laws relating to, sexual consent, abuse, grooming, coercion, harassment, rape, domestic abuse, so called honour-based violence such as forced marriage and female genital mutilation (FGM), and how to access support
 - What constitutes sexual harassment and sexual violence and why they're always unacceptable

Section 15 and appendix 4 of this policy outline in more detail how staff are supported to do this.

5.2 The designated safeguarding lead (DSL)

The DSL is a member of the senior leadership team. Our DSL is Flora Georgiou/Deputy Head Teacher. The DSL takes lead responsibility for child protection and wider safeguarding in the school.

During term time, the DSL will be available during school hours for staff to discuss any safeguarding concerns.

Our DSL can also be contacted out of school hours if necessary on 07961403095 or by email fgeorgiou@eversley.enfield.sch.uk

When the DSL is absent, the deputy Hayley Kirkpatrick (DHT), will act as cover.

The DSL will be given the time, funding, training, resources and support to:

Provide advice and support to other staff on child welfare and child protection matters

Take part in strategy discussions and inter-agency meetings and/or support other staff to do so

Contribute to the assessment of children

Refer suspected cases, as appropriate, to the relevant body (local authority children's social care, Channel programme, Disclosure and Barring Service, and/or police), and support staff who make such referrals directly

Adhere to the ESCP, LCSB and school procedures with regard to referring a child if there are concerns about possible abuse.

Keep written records of concerns about a child even if there is not a need to make an immediate referral.

Ensure that all such records are kept confidentially and securely and are separate from pupil records.

Ensure that an indication of further record-keeping is marked on the pupil records.

Ensure that any pupil currently the subject of a child protection plan who is absent without explanation for one day is referred to the designated social worker.

promote the educational outcomes of children with a social worker.

Ensure staff know who these children are, understand their academic progress and attainment, and maintain a culture of high aspirations for this cohort.

Ensure that children must have an 'appropriate adult' when dealing with police investigations

The DSL will also keep the headteacher informed of any issues, and liaise with local authority case managers and designated officers for child protection concerns as appropriate.

The full responsibilities of the DSL and deputies are set out in their job description.

5.3 The governing board

The governing board should:

Receive appropriate safeguarding and child protection (including online) training at induction. This training should equip them with the knowledge to provide strategic challenge to test and assure themselves that the safeguarding policies and procedures in place are effective and support the delivery of a robust whole school approach to safeguarding. Their training should be regularly updated.

Facilitate a whole-school approach to safeguarding, ensuring that safeguarding and child protection are at the forefront and underpin all relevant aspects of process and policy development

Evaluate and approve this policy at each review, ensuring it complies with the law, and hold the headteacher to account for its implementation

Appoint a link governor – Prafulla Pujara to monitor the effectiveness of this policy in conjunction with the full governing board. This is always a different person from the DSL

The chair of governors will act as the 'case manager' in the event that an allegation of abuse is made against the headteacher, where appropriate

All governors will read Keeping Children Safe in Education in its entirety.

Section 15 of this policy has information on how governors are supported to fulfil their role.

- Receive appropriate safeguarding and child protection (including online) training at induction, which is regularly updated, to equip them with the knowledge to provide strategic challenge. This is so they can be assured that safeguarding policies and procedures are effective and support Eversley to deliver a robust whole school approach to safeguarding
- Be aware of their obligations under the Human Rights Act 1998, the Equality Act 2010, and the Public Sector Equality Duty (PSED).

Human Rights Act

The Human Rights Act 1998 (HRA) sets out the fundamental rights and freedoms that everyone in the UK is entitled to and contains the Articles and protocols of the European Convention on Human Rights (ECHR) (the Convention) that are deemed to apply in the UK. It compels public organisations to respect and protect an individual's human rights when they make individual decisions about them.

Under the HRA, it is unlawful for our school to act in a way that is incompatible with the Convention.

The specific convention rights applying to schools and colleges are:

- Article 3: the right to freedom from inhuman and degrading treatment (an absolute right)
- Article 8: the right to respect for private and family life (a qualified right) includes a duty to protect individuals' physical and psychological integrity
- Article 14: requires that all of the rights and freedoms set out in the Act must be protected and applied without discrimination, 25 and
- Protocol 1, Article 2: protects the right to education.

Being subjected to harassment, violence and or abuse, including that of a sexual nature, may breach any or all of these rights, depending on the nature of the conduct and the circumstances. Further information (including on absolute and qualified rights) can be found at Human Rights | Equality and Human Rights Commission (equalityhumanrights.com)

Equality Act 2010

Eversley has obligations under the Equality Act 2010 (the Equality Act).

According to the Equality Act, Eversley **must** not unlawfully discriminate against pupils because of their sex, race, disability, religion or belief, gender reassignment, pregnancy and maternity, or sexual orientation (protected characteristics).

Whilst all of the above protections are important, in the context of safeguarding, this guidance, and the legal duties placed on schools and colleges in relation to safeguarding and promoting the welfare of children, governing bodies and proprietors should carefully consider how they are supporting their pupils and students with regard to particular protected characteristics - including disability, sex, sexual orientation, gender reassignment and race.

Provisions within the Equality Act allow schools and colleges to take positive action, where it can be shown that it is proportionate, to deal with particular disadvantages affecting pupils or students with a particular protected characteristic in order to meet their specific need, this includes a duty to make

reasonable adjustments for disabled children and young people, including those with long term conditions. A school or college, could, for example, consider taking positive action to support girls if there was evidence they were being disproportionately subjected to sexual violence or sexual harassment.

Guidance on how the Equality Act affects Eversley and how to fulfil our duties under the act can be found at Equality Act 2010: advice for schools - GOV.UK (www.gov.uk), it may also be useful for colleges. For further information Equality Act guidance | Equality and Human Rights Commission (equalityhumanrights.com).

Public Sector Equality Duty

The Public Sector Equality Duty (PSED) is found in the Equality Act. Compliance with the PSED is a legal requirement for state-funded schools and colleges, advice on this – including on specific duties, is set out in the advice linked below.

The PSED places a general duty on Eversley to have, in the exercise of their functions, due regard to the need to eliminate unlawful discrimination, harassment and victimisation (and any other conduct prohibited under the Equality Act), to advance equality of opportunity and foster good relations between those who share a relevant protected characteristic and those who do not. The duty applies to all protected characteristics and means that whenever significant decisions are being made or policies developed, specific consideration must be given to the equality implications of these such as, for example, the need to eliminate unlawful behaviours that relate to them such as sexual violence and sexual harassment, misogyny/misandry and racism. This is one reason why good record-keeping and monitoring of all forms of abuse and harassment is essential.

The PSED helps Eversley to focus on key issues of concern and how to improve pupil and student outcomes. Some pupils or students may be more at risk of harm from specific issues such as sexual violence, homophobic, biphobic or transphobic bullying or racial discrimination. Such concerns will differ between education settings, but it is important schools and colleges are conscious of disproportionate vulnerabilities and integrate this into their safeguarding policies and procedures. For further information please see Technical Guidance on the Public Sector Equality Duty: England | Equality and Human Rights Commission (equalityhumanrights.com)

- Make sure:
- Flora Georgiou as designated safeguarding lead (DSL) has the appropriate status and authority to carry out her job. Governing bodies need to give the DSL the additional time, funding, training, resources and support needed to carry out the role effectively
- Online safety is a running and interrelated theme whilst devising and implementing their whole school approach to safeguarding and related policies/procedures (this has now been specified as a responsibility of governing bodies and proprietors)
- The leadership team and relevant staff are aware of and understand the filters and monitoring systems in place, manage them effectively and know how to escalate concerns
- Your school has procedures to manage any safeguarding concerns (no matter how small) or allegations that do not meet the harm threshold (low-level concerns), about staff members (including supply staff, volunteers and contractors).
- The child protection policy reflects that children with special educational needs or disabilities (SEND), or certain medical or physical health conditions can face additional barriers, including cognitive understanding (being unable to understand the difference between fact and fiction in online content and then repeating the content/behaviours in schools or colleges, or the consequences of doing so).
- Seek assurance that where another body is providing services or activities, that they have appropriate safeguarding and child protection policies/procedures in place. This applies regardless of whether or not the children who attend these services/activities are children on the school roll/attend the school

5.4 The headteacher

The headteacher is responsible for the implementation of this policy, including:

Ensuring that staff (including temporary staff) and volunteers:

- Are informed of our systems which support safeguarding, including this policy, as part of their induction
- Understand and follow the procedures included in this policy, particularly those concerning referrals of cases of suspected abuse and neglect

Communicating this policy to parents/carers when their child joins the school and via the school website

Ensuring that the DSL has appropriate time, funding, training and resources, and that there is always adequate cover if the DSL is absent

Ensuring that all staff undertake appropriate safeguarding and child protection training, and updating the content of the training regularly

Acting as the 'case manager' in the event of an allegation of abuse made against another member of staff or volunteer, where appropriate (see appendix 3)

Ensuring the relevant staffing ratios are met, where applicable

Making sure each child in the Early Years Foundation Stage is assigned a key person

6. Confidentiality

Timely information sharing is essential to effective safeguarding

Fears about sharing information must not be allowed to stand in the way of the need to promote the welfare, and protect the safety, of children

The Data Protection Act (DPA) 2018 and UK GDPR do not prevent, or limit, the sharing of information for the purposes of keeping children safe

If staff need to share 'special category personal data', the DPA 2018 contains 'safeguarding of children and individuals at risk' as a processing condition that allows practitioners to share information without consent if it is not possible to gain consent, it cannot be reasonably expected that a practitioner gains consent, or if to gain consent would place a child at risk

Staff should never promise a child that they will not tell anyone about a report of abuse, as this may not be in the child's best interests

The government's [information sharing advice for safeguarding practitioners](#) includes 7 'golden rules' for sharing information, and will support staff who have to make decisions about sharing information

If staff are in any doubt about sharing information, they should speak to the designated safeguarding lead (or deputy)

Confidentiality is also addressed in this policy with respect to record-keeping in section 14, and allegations of abuse against staff in appendix 3

The designated safeguarding lead and any deputies will liaise with the three safeguarding partners and work with other agencies in line with Working Together to Safeguard Children. *NPCC- When to call the police* should help designated safeguarding leads understand when they will consider calling the police and what to expect when they do.

7. Recognising abuse and taking action

Staff, volunteers and governors must follow the procedures set out below in the event of a safeguarding issue.

Please note – in this and subsequent sections, you should take any references to the DSL to mean "the DSL (or deputy DSL)".

7.1 If a child is suffering or likely to suffer harm, or in immediate danger

Where a child is suffering, or is likely to suffer from harm, it is important that a referral to local authority children's social care (and if appropriate the police) is made immediately. Make a referral to

children's social care and/or the police **immediately** if you believe a child is suffering or likely to suffer from harm, or is in immediate danger. **Anyone can make a referral.**

Tell the DSL (see section 5.2) as soon as possible if you make a referral directly.

If you are worried about a child, young person or adult at risk, please use the contact information below to refer into Children's and Adult MASH (Multi-Agency Safeguarding Hub) teams.

Remember in an emergency always call 999.

If you are worried about a child or young person:

Please refer them to the Children's MASH (Multi Agency Safeguarding Hub) using the Children's Portal: www.enfield.gov.uk/childrensportal

You can call on 020 8379 5555 (Mon-Thurs 9am-5pm; Fri 9am-4.45pm). Out of office hours call: 020 8379 1000 (select option 2 and you will be transferred to an advisor). You can email at: ChildrensMASH@enfield.gov.uk

If you wish to report child abuse to your local council:

<https://www.gov.uk/report-child-abuse-to-local-council>

7.2 If a child makes a disclosure to you

If a child discloses a safeguarding issue to you, you should:

Listen to and believe them. Allow them time to talk freely and do not ask leading questions

Stay calm and do not show that you are shocked or upset

Tell the child they have done the right thing in telling you. Do not tell them they should have told you sooner

Reassure victims that they are being taken seriously and that they will be supported and kept safe. A victim should never be given the impression that they are creating a problem by reporting abuse, sexual violence or sexual harassment. Nor should a victim ever be made to feel ashamed for making a report.

Explain what will happen next and that you will have to pass this information on. Do not promise to keep it a secret

Write up your conversation as soon as possible in the child's own words. Stick to the facts, and do not put your own judgement on it

Talk to the DSL or the DDSL immediately

Sign and date the write-up on CPOMS. Alternatively, if appropriate, make a referral to children's social care and/or the police directly (see 7.1), and tell the DSL as soon as possible that you have done so. Aside from these people, do not disclose the information to anyone else unless told to do so by a relevant authority involved in the safeguarding process

7.3 If you discover that FGM has taken place or a pupil is at risk of FGM

Keeping Children Safe in Education explains that FGM comprises "all procedures involving partial or total removal of the external female genitalia, or other injury to the female genital organs".

FGM is illegal in the UK and a form of child abuse with long-lasting, harmful consequences. It is also known as 'female genital cutting', 'circumcision' or 'initiation'.

Possible indicators that a pupil has already been subjected to FGM, and factors that suggest a pupil may be at risk, are set out in appendix 4 of this policy.

Any teacher who either:

- Is informed by a girl under 18 that an act of FGM has been carried out on her; or
- Observes physical signs which appear to show that an act of FGM has been carried out on a girl under 18 and they have no reason to believe that the act was necessary for the girl's physical or mental health or for purposes connected with labour or birth

Must immediately report this to the police, personally. This is a mandatory statutory duty, and teachers will face disciplinary sanctions for failing to meet it.

Unless they have been specifically told not to disclose, they should also discuss the case with the DSL and involve children's social care as appropriate.

Any other member of staff who discovers that an act of FGM appears to have been carried out on a **pupil under 18** must speak to the DSL and follow our local safeguarding procedures.

The duty for teachers mentioned above does not apply in cases where a pupil is *at risk* of FGM or FGM is suspected but is not known to have been carried out. Staff should not examine pupils.

Any member of staff who suspects a pupil is *at risk* of FGM or suspects that FGM has been carried out must speak to the DSL and follow our local safeguarding procedures.

If you are worried that a child may be at risk of FGM, you can contact the Free 24 hour helpline anonymously on 0800 028 3550 or email fgmhelp@nspcc.org.uk

7.4 If you have concerns about a child (as opposed to believing a child is suffering or likely to suffer from harm, or is in immediate danger)

Figure 1 below, before section 7.7, illustrates the procedure to follow if you have any concerns about a child's welfare.

Where possible, speak to the DSL first to agree a course of action.

If in exceptional circumstances the DSL is not available, this should not delay appropriate action being taken. Speak to a member of the senior leadership team and/or take advice from local authority children's social care. You can also seek advice at any time from the NSPCC helpline on 0808 800 5000. Share details of any actions you take with the DSL as soon as practically possible.

Make a referral to local authority children's social care directly, if appropriate (see 'Referral' below). Share any action taken with the DSL as soon as possible.

Early help

If early help is appropriate, the DSL will generally lead on liaising with other agencies and setting up an inter-agency assessment as appropriate. Staff may be required to support other agencies and professionals in an early help assessment, in some cases acting as the lead practitioner.

The DSL will keep the case under constant review and the school will consider a referral to local authority children's social care if the situation does not seem to be improving. Timelines of interventions will be monitored and reviewed.

To help DSL make decisions about when to make a referral we refer to the Enfield Children's Services Threshold Guide.

If staff have more urgent concerns or a child is at imminent risk of harm, we always call the MASH in advance of completing our written referral on 0208 379 5555.

Referral

If it is appropriate to refer the case to local authority children's social care or the police, the DSL will make the referral or support you to do so.

If you make a referral directly (see section 7.1), you must tell the DSL as soon as possible.

The local authority will make a decision within 1 working day of a referral about what course of action to take and will let the person who made the referral know the outcome. The DSL or person who made the referral must follow up with the local authority if this information is not made available, and ensure outcomes are properly recorded.

If the child's situation does not seem to be improving after the referral, the DSL or person who made the referral must follow local escalation procedures to ensure their concerns have been addressed and that the child's situation improves.

If you are worried about a child, young person or adult at risk, please use the contact information below to refer into our Children's and Adult MASH (Multi-Agency Safeguarding Hub) teams.

Remember in an emergency always call 999.

If you are worried about a child or young person:

Please refer them to the Children's MASH (Multi Agency Safeguarding Hub) using the Children's Portal: www.enfield.gov.uk/childrensportal

You can call on 020 8379 5555 (Mon-Thurs 9am-5pm; Fri 9am-4.45pm). Out of office hours call: 020 8379 1000 (select option 2 and you will be transferred to an advisor). You can email at: ChildrensMASH@enfield.gov.uk

If you are worried about an adult at risk: Please call our Adults MASH (Multi-Agency Safeguarding Hub) on 020 8379 3196 (Mon -Fri 9am to 5pm) or call the Adult Abuse line on 020 8379 5212 (this is a 24 hour you can leave your concern anonymously) or you can email the team at: TheMashTeam@enfield.gov.uk

7.5 If you have concerns about extremism

If a child is not suffering or likely to suffer from harm, or in immediate danger, where possible speak to the DSL first to agree a course of action.

If in exceptional circumstances the DSL is not available, this should not delay appropriate action being taken. Speak to a member of the senior leadership team and/or seek advice from local authority children's social care. Make a referral to local authority children's social care directly, if appropriate (see 'Referral' above). Inform the DSL or deputy as soon as practically possible after the referral.

Where there is a concern, the DSL will consider the level of risk and decide which agency to make a referral to. This could include [Channel](#), the government's programme for identifying and supporting individuals at risk of being drawn into terrorism, or the local authority children's social care team.

The Department for Education also has a dedicated telephone helpline, 020 7340 7264, which school staff and governors can call to raise concerns about extremism with respect to a pupil. You can also email counter.extremism@education.gov.uk. Note that this is not for use in emergency situations.

In an emergency, call 999 or the confidential anti-terrorist hotline on 0800 789 321 if you:

Think someone is in immediate danger

Think someone may be planning to travel to join an extremist group

See or hear something that may be terrorist-related

7.6 If you have a mental health concern

Mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation.

Staff will be alert to behavioural signs that suggest a child may be experiencing a mental health problem or be at risk of developing one.

If you have a mental health concern about a child that is also a safeguarding concern, take immediate action by following the steps in section 7.4.

If you have a mental health concern that is **not** also a safeguarding concern, speak to the Mental Health Lead and make a mental Health referral on CPOMS to agree a course of action.

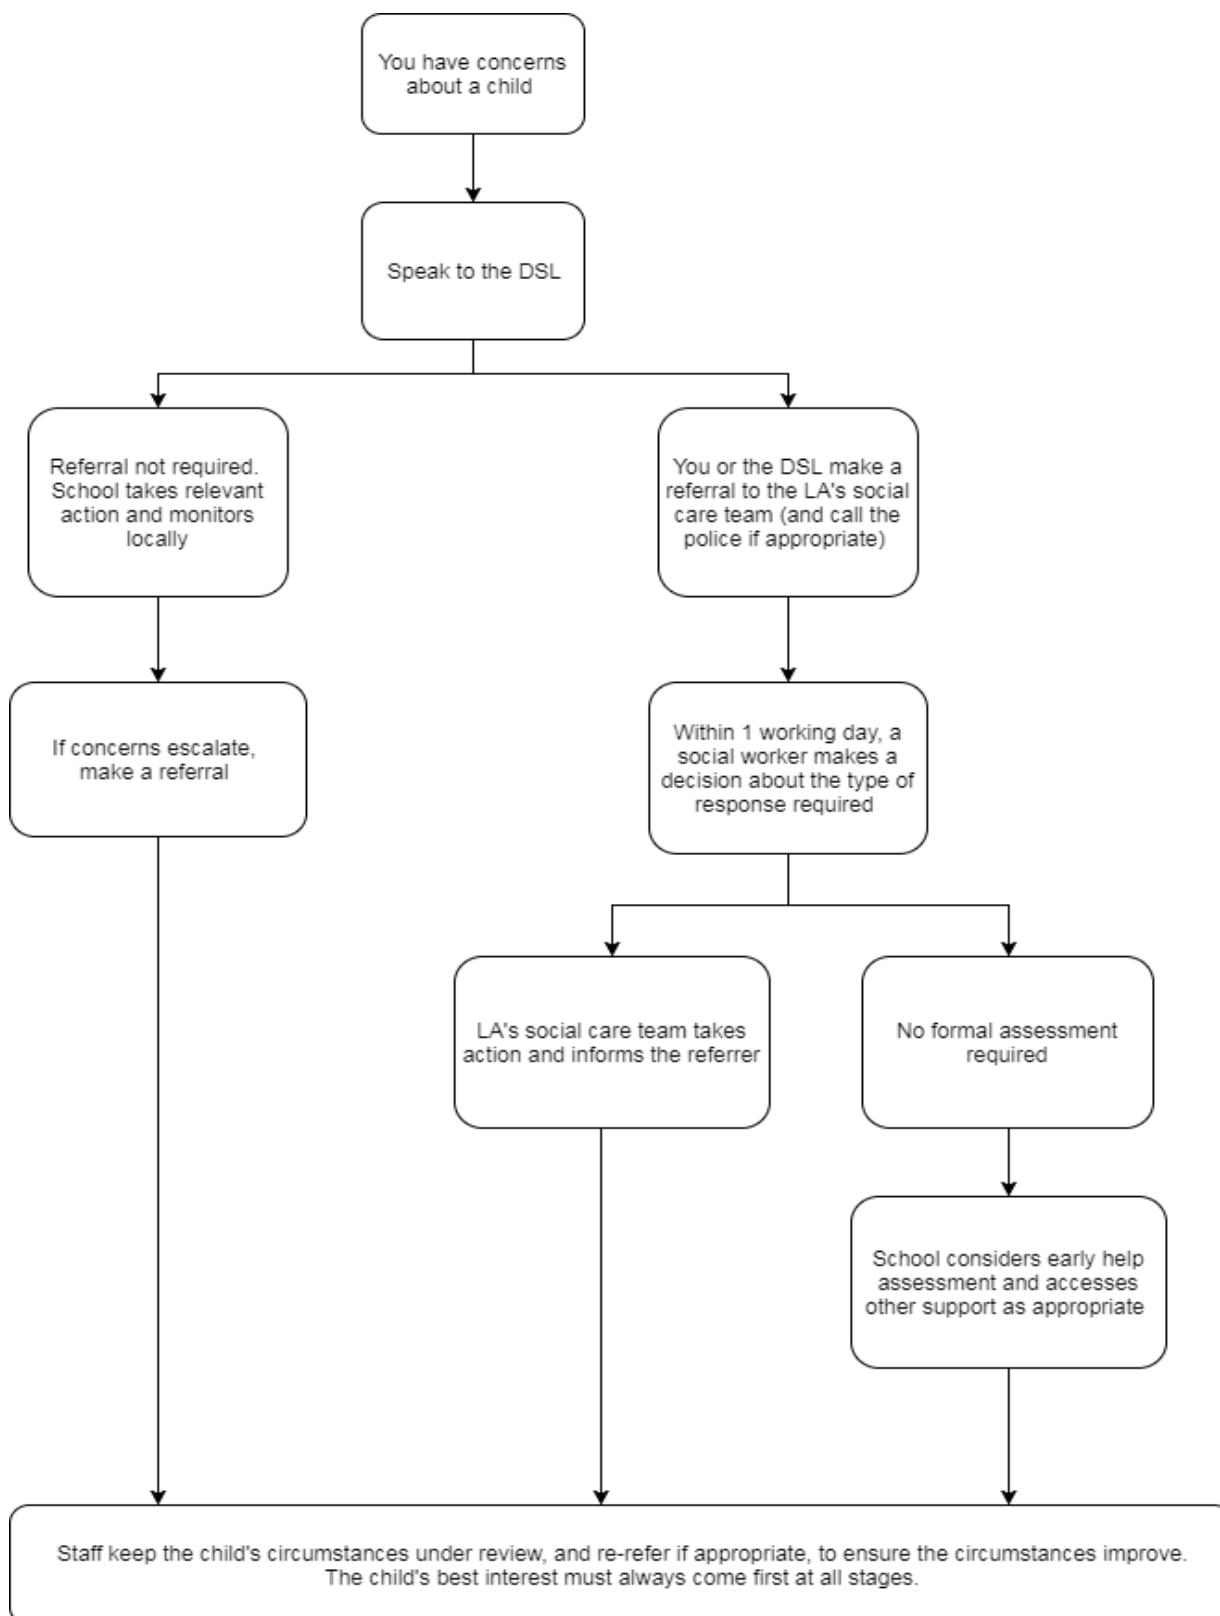

Eversley are currently part of a pilot scheme run by the Local Authority BARNET, ENFIELD AND HARINGEY MENTAL HEALTH NHS TRUST whereby two Educational Mental Health Practitioner Trainees (My Young Minds Enfield) will be assigned to the school to support with mental health concerns that do not meet the threshold

for CAMHS for one more year. We also have the support of a Trainee Psychologist working with families once a week for a year.

Refer to the Department for Education guidance on [mental health and behaviour in schools](#) for more information.

Figure 1: procedure if you have concerns about a child’s welfare (as opposed to believing a child is suffering or likely to suffer from harm, or in immediate danger)

(Note – if the DSL is unavailable, this should not delay action. See section 7.4 for what to do.)

7.7 Concerns about a staff member, supply teacher, volunteer or contractor

If you have concerns about a member of staff (including a supply teacher, volunteer or contractor), or an allegation is made about a member of staff (including a supply teacher, volunteer or contractor) posing a risk of harm to children, speak to the headteacher as soon as possible. If the concerns/allegations are about the headteacher, speak to the chair of governors.

The headteacher/chair of governors will then follow the procedures set out in appendix 3, if appropriate.

Where you believe there is a conflict of interest in reporting a concern or allegation about a member of staff (including a supply teacher, volunteer or contractor) to the headteacher, report it directly to the local authority designated officer (LADO).

We understand that a pupil may make an allegation against a member of staff and volunteers. If such an allegation is made, the member of staff or volunteer receiving the allegation will immediately inform the Head teacher. The Head teacher on all such occasions will discuss the content of the allegation with the Local Authority Designated Officer (LADO).

In Enfield, the role of the LADO is undertaken by the Deputy Head of Safeguarding and Quality Service (SQS), Andreas Kyriacou will be the LADO (Local Authority Designated Officer) Contact details; Via email safeguardingservice@enfield.gov.uk or 0208 379 2850/0208 379 4392

If the allegation made to a member of staff concerns the Head teacher, the staff member will immediately inform the Chair of Governors (see contact details above) who will consult with the Enfield's Lead Officer for Safeguarding and Child Protection. The LADO. (see contact details above). The school will follow the All London Child Protection Procedures for managing allegations against staff.

Where appropriate, the school will inform Ofsted of the allegation and actions taken, within the necessary timescale (see appendix 3 for more detail).

7.8 Allegations of abuse made against other pupils – CHILD ON CHILD ABUSE

We recognise that children are capable of abusing their peers. Abuse will never be tolerated or passed off as “banter”, “just having a laugh” or “part of growing up”, as this can lead to a culture of unacceptable behaviours and an unsafe environment for pupils.

We also recognise the gendered nature of **child on child** abuse. However, all **child on child** abuse is unacceptable and will be taken seriously.

Most cases of pupils hurting other pupils will be dealt with under our school's behaviour policy, but this child protection and safeguarding policy will apply to any allegations that raise safeguarding concerns. This might include where the alleged behaviour:

Is serious, and potentially a criminal offence

Could put pupils in the school at risk

Is violent

Involves pupils being forced to use drugs or alcohol

Involves sexual exploitation, sexual abuse or sexual harassment, such as indecent exposure, sexual assault, upskirting or sexually inappropriate pictures or videos (including the sharing of nudes and semi-nudes)

See appendix 4 for more information about **child on child** abuse.

Procedures for dealing with allegations of **child on child** abuse

If a child makes an allegation of abuse against another child:

You must record the allegation and tell the DSL, but do not investigate it

The DSL will contact the local authority children's social care team and follow its advice, as well as the police if the allegation involves a potential criminal offence

The DSL will put a risk assessment and support plan into place for all children involved (including the victim(s), the child(ren) against whom the allegation has been made and any others affected) with a named person they can talk to if needed

The DSL will contact the children and adolescent mental health services (CAMHS), if appropriate

Creating a supportive environment in school and minimising the risk of **child on child abuse**

We recognise the importance of taking proactive action to minimise the risk of **child-on-child** abuse, and of creating a supportive environment where victims feel confident in reporting incidents.

To achieve this, we will:

Challenge any form of derogatory or sexualised language or inappropriate behaviour between peers, including requesting or sending sexual images

Be vigilant to issues that particularly affect different genders – for example, sexualised or aggressive touching or grabbing towards female pupils, and initiation or hazing type violence with respect to boys

Ensure our curriculum helps to educate pupils about appropriate behaviour and consent

Ensure pupils are able to easily and confidently report abuse using our reporting systems (as described in section 7.10 below)

Ensure staff reassure victims that they are being taken seriously

Ensure staff are trained to understand:

- How to recognise the indicators and signs of child-on-child abuse, and know how to identify it and respond to reports
- That even if there are no reports of child-on-child abuse in school, it does not mean it is not happening – staff should maintain an attitude of “it could happen here”
- That if they have any concerns about a child’s welfare, they should act on them immediately rather than wait to be told, and that victims may not always make a direct report. For example:
 - Children can show signs or act in ways they hope adults will notice and react to
 - A friend may make a report
 - A member of staff may overhear a conversation
 - A child’s behaviour might indicate that something is wrong
- That certain children may face additional barriers to telling someone because of their vulnerability, disability, gender, ethnicity and/or sexual orientation
- That a pupil harming a peer could be a sign that the child is being abused themselves, and that this would fall under the scope of this policy
- The important role they have to play in preventing child-on-child abuse and responding where they believe a child may be at risk from it
- That they should speak to the DSL if they have any concerns

7.9 Sharing of nudes and semi-nudes (‘sexting’)

Your responsibilities when responding to an incident

If you are made aware of an incident involving the consensual or non-consensual sharing of nude or semi-nude images/videos (also known as ‘sexting’ or ‘youth produced sexual imagery’), you must report it to the DSL immediately.

You must **not**:

View, copy, print, share, store or save the imagery yourself, or ask a pupil to share or download it (if you have already viewed the imagery by accident, you must report this to the DSL)

Delete the imagery or ask the pupil to delete it

Ask the pupil(s) who are involved in the incident to disclose information regarding the imagery (this is the DSL’s responsibility)

Share information about the incident with other members of staff, the pupil(s) it involves or their, or other, parents and/or carers

Say or do anything to blame or shame any young people involved

You should explain that you need to report the incident, and reassure the pupil(s) that they will receive support and help from the DSL.

Initial review meeting

Following a report of an incident, the DSL will hold an initial review meeting with appropriate school staff – this may include the staff member who reported the incident and the safeguarding or leadership team that deals with safeguarding concerns. This meeting will consider the initial evidence and aim to determine:

Whether there is an immediate risk to pupil(s)

If a referral needs to be made to the police and/or children's social care

If it is necessary to view the image(s) in order to safeguard the young person (in most cases, images or videos should not be viewed)

What further information is required to decide on the best response

Whether the image(s) has been shared widely and via what services and/or platforms (this may be unknown)

Whether immediate action should be taken to delete or remove images or videos from devices or online services

Any relevant facts about the pupils involved which would influence risk assessment

If there is a need to contact another school, college, setting or individual

Whether to contact parents or carers of the pupils involved (in most cases parents/carers should be involved)

The DSL will make an immediate referral to police and/or children's social care if:

The incident involves an adult

There is reason to believe that a young person has been coerced, blackmailed or groomed, or if there are concerns about their capacity to consent (for example owing to special educational needs)

What the DSL knows about the images or videos suggests the content depicts sexual acts which are unusual for the young person's developmental stage, or are violent

The imagery involves sexual acts and any pupil in the images or videos is under 13

The DSL has reason to believe a pupil is at immediate risk of harm owing to the sharing of nudes and semi-nudes (for example, the young person is presenting as suicidal or self-harming)

If none of the above apply then the DSL, in consultation with the headteacher and other members of staff as appropriate, may decide to respond to the incident without involving the police or children's social care. The decision will be made and recorded in line with the procedures set out in this policy.

Further review by the DSL

If at the initial review stage a decision has been made not to refer to police and/or children's social care, the DSL will conduct a further review to establish the facts and assess the risks.

They will hold interviews with the pupils involved (if appropriate).

If at any point in the process there is a concern that a pupil has been harmed or is at risk of harm, a referral will be made to children's social care and/or the police immediately.

1. Is a crime in progress or suspect on scene? Dial 999
2. Is there any risk identified required immediate police action? Dial 999
3. Is police attendance required within 1 hour? Dial 101
4. Is police attendance required during school hours within 24 hours? If yes, call the schools office on 0208 345 1155 – if no reply, dial 101.

If none of the above apply please email one of the mailboxes below with your enquiry for the next available schools officer to deal with. Please enter the name of the school in the subject title when emailing the mailbox.

NAmailbox-.NorthPrimarySchools@met.police.uk

NAmailbox-.SaferSchoolsNorth@met.police.uk

Lauren.Banks@met.police.uk

Informing parents/carers

The DSL will inform parents/carers at an early stage and keep them involved in the process, unless there is a good reason to believe that involving them would put the pupil at risk of harm.

Referring to the police

If it is necessary to refer an incident to the police, this will be done through the safer school's officer (see above)

Recording incidents

All incidents of sharing of nudes and semi-nudes, and the decisions made in responding to them, will be recorded. The record-keeping arrangements set out in section 14 of this policy also apply to recording these incidents.

Curriculum coverage

Pupils are taught about the issues surrounding the sharing of nudes and semi-nudes as part of our relationships and sex education and computing programmes. Teaching covers the following in relation to the sharing of nudes and semi-nudes:

What it is

How it is most likely to be encountered

The consequences of requesting, forwarding or providing such images, including when it is and is not abusive and when it may be deemed as online sexual harassment

Issues of legality

The risk of damage to people's feelings and reputation

Pupils also learn the strategies and skills needed to manage:

Specific requests or pressure to provide (or forward) such images

The receipt of such images

This policy on the sharing of nudes and semi-nudes is also shared with pupils so they are aware of the processes the school will follow in the event of an incident.

7.10 Reporting systems for our pupils

Where there is a safeguarding concern, we will take the child's wishes and feelings into account when determining what action to take and what services to provide.

We recognise the importance of ensuring pupils feel safe and comfortable to come forward and report any concerns and/or allegations.

To achieve this, we will:

Put systems in place for pupils to confidently report abuse

Ensure our reporting systems are well promoted, easily understood and easily accessible for pupils

Make it clear to pupils that their concerns will be taken seriously, and that they can safely express their views and give feedback

Ensure pupils understand they can report concerns to staff they trust and feel safe to talk to, senior leaders, write in the worry box.

Pupils are aware of the reporting systems and processes through discussion in our relationship/sex education curriculum, assemblies.

Staff are trained to provide reassurances following disclosures.

8. Online safety and the use of mobile technology

We recognise the importance of safeguarding children from potentially harmful and inappropriate online material, and we understand that technology is a significant component in many safeguarding and wellbeing issues.

To address this, our school aims to:

Have robust processes in place to ensure the online safety of pupils, staff, volunteers and governors (see e-safety policy)

Protect and educate the whole school community in its safe and responsible use of technology, including mobile and smart technology (which we refer to as 'mobile phones')

Set clear guidelines for the use of mobile phones for the whole school community (see mobile phone policy)

Establish clear mechanisms to identify, intervene in and escalate any incidents or concerns, where appropriate

The 4 key categories of risk

Our approach to online safety is based on addressing the following categories of risk:

Content – being exposed to illegal, inappropriate or harmful content, such as pornography, fake news, hoaxes, racism, misogyny, self-harm, suicide, anti-Semitism, radicalisation and extremism

Contact – being subjected to harmful online interaction with other users, such as peer-to-peer pressure, commercial advertising and adults posing as children or young adults with the intention to groom or exploit them for sexual, criminal, financial or other purposes

Conduct – personal online behaviour that increases the likelihood of, or causes, harm, such as making, sending and receiving explicit images (e.g. consensual and non-consensual sharing of nudes and semi-nudes and/or pornography), sharing other explicit images and online bullying; and

Commerce – risks such as online gambling, inappropriate advertising, phishing and/or financial scams

To meet our aims and address the risks above we will:

Educate pupils about online safety as part of our curriculum. For example:

- The safe use of social media, the internet and technology
- Keeping personal information private
- How to recognise unacceptable behaviour online
- How to report any incidents of cyber-bullying, ensuring pupils are encouraged to do so, including where they are a witness rather than a victim

Train staff, as part of their induction, on safe internet use and online safeguarding issues including cyber-bullying and the risks of online radicalisation. All staff members will receive refresher training at least once each academic year

Educate parents/carers about online safety via our website, communications sent directly to them and during parents' evenings. We will also share clear procedures with them so they know how to raise concerns about online safety

Make sure staff are aware of any restrictions placed on them with regards to the use of their mobile phone and cameras, for example that:

- Staff are allowed to bring their personal phones to school for their own use, but will limit such use to non-contact time when pupils are not present

- Staff will not take pictures or recordings of pupils on their personal phones or cameras

Make all pupils, parents/carers, staff, volunteers and governors aware that they are expected to sign an agreement regarding the acceptable use of the internet in school, use of the school's ICT systems and use of their mobile and smart technology

Explain the sanctions we will use if a pupil is in breach of our policies on the acceptable use of the internet and mobile phones

Make sure all staff, pupils and parents/carers are aware that staff have the power to search pupils' phones, as set out in the [DfE's guidance on searching, screening and confiscation](#)

Put in place robust filtering and monitoring systems to limit children's exposure to the 4 key categories of risk (described above) from the school's IT systems- [all concerns will be escalated](#).

Carry out an annual review of our approach to online safety, supported by an annual risk assessment that considers and reflects the risks faced by our school community

At Eversley staff must report any concerns in the following manner:

- **Speak IMMEDIATELY to the Computing Co-ordinator (Rhian Goddard) and the DSL and/deputies**
- **A risk assessment will be conducted by the Computing Co-ordinator (Rhian Goddard) and the DSL and/deputies depending on the nature of the concern**
- **Staff member raising the concern must then record the nature of the concern on CPOMS under the category 'Safeguarding – E-safety'**
- **The concern will be followed up by the DSL/Computing co-ordinator under the processes described in the e-safety policy.**

This section summarises our approach to online safety and mobile phone use. For comprehensive details about our school's policy on online safety and the use of mobile phones, please refer to our e- safety policy and mobile phone policy, which you can find on our website

9. Notifying parents or carers

Where appropriate, we will discuss any concerns about a child with the child's parents or carers. The DSL will normally do this in the event of a suspicion or disclosure.

Other staff will only talk to parents or carers about any such concerns following consultation with the DSL.

If we believe that notifying the parents or carers would increase the risk to the child, we will discuss this with the local authority children's social care team before doing so.

In the case of allegations of abuse made against other children, we will normally notify the parents or carers of all the children involved.

Children potentially at greater risk of harm

Whilst **all children** should be protected, it is important that that we recognise that some groups of children, are potentially at greater risk of harm than others. The list below, is not exhaustive, but highlights some of those groups.

10. Pupils with special educational needs, disabilities or health issues

We recognise that pupils with special educational needs (SEN) or disabilities or certain health conditions can face additional safeguarding challenges. Additional barriers can exist when recognising abuse and neglect in this group, including:

Assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child's condition without further exploration

Pupils being more prone to peer group isolation or bullying (including prejudice-based bullying) than other pupils

The potential for pupils with SEN, disabilities or certain health conditions being disproportionately impacted by behaviours such as bullying, without outwardly showing any signs

Communication barriers and difficulties in managing or reporting these challenges

11. Pupils with a social worker

Pupils may need a social worker due to safeguarding or welfare needs. We recognise that a child's experiences of adversity and trauma can leave them vulnerable to further harm as well as potentially creating barriers to attendance, learning, behaviour and mental health.

The DSL and all members of staff will work with and support social workers to help protect vulnerable children.

Where we are aware that a pupil has a social worker, the DSL will always consider this fact to ensure any decisions are made in the best interests of the pupil's safety, welfare and educational outcomes. For example, it will inform decisions about:

Responding to unauthorised absence or missing education where there are known safeguarding risks

The provision of pastoral and/or academic support

12. Looked-after and previously looked-after children

We will ensure that staff have the skills, knowledge and understanding to keep looked-after children and previously looked-after children safe. In particular, we will ensure that:

Appropriate staff have relevant information about children's looked after legal status, contact arrangements with birth parents or those with parental responsibility, and care arrangements

The DSL has details of children's social workers and relevant virtual school heads

We have appointed a designated teacher, Shirley Gonzalez who is responsible for promoting the educational achievement of looked-after children and previously looked-after children in line with [statutory guidance](#).

The designated teacher is appropriately trained and has the relevant qualifications and experience to perform the role.

As part of their role, the designated teacher will:

Work closely with the DSL to ensure that any safeguarding concerns regarding looked-after and previously looked-after children are quickly and effectively responded to

Work with virtual school heads to promote the educational achievement of looked-after and previously looked-after children, including discussing how pupil premium plus funding can be best used to support looked-after children and meet the needs identified in their personal education plans

Children requiring mental health support

We have an important role to play in supporting the mental health and wellbeing of our pupils.

Mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation. We have a robust system to that clear systems and processes in place for identifying possible mental health problems, including routes to escalate and clear referral and accountability systems(see above 7.6)

Our Senior Mental Health Lead is Hayley Kirkpatrick

Children who are lesbian, gay, bi, or trans (LGBT)

The fact that a child or a young person may be LGBT is not in itself an inherent risk factor for harm. However, children who are LGBT can be targeted by other children. In some cases, a child who is perceived by other children to be LGBT (whether they are or not) can be just as vulnerable as children who identify as LGBT.

Risks can be compounded where children who are LGBT lack a trusted adult with whom they can be open. It is therefore vital that staff endeavour to reduce the additional barriers faced and provide a safe space for them to speak out or share their concerns with members of staff. At Eversley we use the well being room as a safe space.

13. Complaints and concerns about school safeguarding policies

13.1 Complaints against staff

Complaints against staff that are likely to require a child protection investigation will be handled in accordance with our procedures for dealing with allegations of abuse made against staff (see appendix 3).

13.2 Other complaints

Safeguarding-related complaints of other types for example, those related to pupils or premises will be handled in accordance with our procedures for dealing with logging a concern to the DSL, behaviour and health and safety, using our online CPOMS system.

13.3 Whistle-blowing

Please refer to Enfield Whistle-Blowing Policy 2018 that covers concerns regarding the way the school safeguards pupils – including poor or unsafe practice, or potential failures.

Where a staff member feels unable to raise an issue with their employer, or feels that their genuine concerns are not being addressed, other whistleblowing channels may be open to them:

- general guidance on whistleblowing can be found via: Advice on Whistleblowing; and
- the NSPCC's Whistleblowing advice line is available as an alternative route for staff who do not feel able to raise concerns regarding child protection failures internally or have concerns about the way a concern is being handled by their school. Staff can call 0800 028 0285 – line is available from 8:00 AM to 8:00 PM, Monday to Friday and email: help@nspcc.org.uk.

14. Record-keeping

We will hold records in line with our records retention schedule.

All safeguarding concerns, discussions, decisions made and the reasons for those decisions, must be recorded in writing. If you are in any doubt about whether to record something, discuss it with the DSL.

Records will include:

Using CPOMS to record concerns

A clear and comprehensive summary of the concern

Details of how the concern was followed up and resolved

A note of any action taken, decisions reached and the outcome

Concerns and referrals will be kept in a separate child protection file for each child.

Any non-confidential records will be readily accessible and available. Confidential information and records will be held securely and only available to those who have a right or professional need to see them.

Safeguarding records relating to individual children will be retained for a reasonable period of time after they have left the school.

Safeguarding records which contain information about allegations of sexual abuse will be retained for the Independent Inquiry into Child Sexual Abuse (IICSA), for the term of the inquiry.

If a child for whom the school has, or has had, safeguarding concerns moves to another school, the DSL will ensure that their child protection file is forwarded promptly and securely, and separately from the main pupil

file. In addition, if the concerns are significant or complex, and/or social services are involved, the DSL will speak to the DSL of the receiving school and provide information to enable them to have time to make any necessary preparations to ensure the safety of the child.

Records are paper based and electronic

Records are held in an unmarked folder and locked away

We retain the information for 25 years.

Eversley shares information with other agencies, when this is appropriate, in line with our local safeguarding procedures. Other agencies the school may share information with:

Primary Behaviour Support

CAMHS + EPS

Joint Services for Disabled Children

Enfield Special Educational Needs and Disabilities Information Advice Support Service

Parental Support Unit

Education Health Care Services

In addition:

Appendix 2 sets out our policy on record-keeping specifically with respect to recruitment and pre-appointment checks

Appendix 3 sets out our policy on record-keeping with respect to allegations of abuse made against staff

15. Training

15.1 All staff

All staff members will undertake safeguarding and child protection training at induction, including on whistle-blowing procedures and online safety, to ensure they understand the school's safeguarding systems and their responsibilities, and can identify signs of possible abuse or neglect.

This training will be regularly updated and will:

Be integrated, aligned and considered as part of the whole-school safeguarding approach and wider staff training, and curriculum planning

Be in line with advice from the 3 safeguarding partners

Have regard to the Teachers' Standards to support the expectation that all teachers:

- Manage behaviour effectively to ensure a good and safe environment
- Have a clear understanding of the needs of all pupils

All staff will have training on the government's anti-radicalisation strategy, Prevent, to enable them to identify children at risk of being drawn into terrorism and to challenge extremist ideas.

Staff will also receive regular safeguarding and child protection updates, including on online safety, as required but at least annually (for example, through emails, e-bulletins and staff meetings).

Contractors who are provided through a private finance initiative (PFI) or similar contract will also receive safeguarding training.

Volunteers will receive appropriate training, if applicable.

15.2 The DSL and deputies

The DSL and deputies will undertake child protection and safeguarding training at least every 2 years.

The DSL takes part in the Enfield Safeguarding Partnership Half Termly meetings

In addition, they will update their knowledge and skills at regular intervals and at least annually (for example, through e-bulletins, meeting other DSLs, or taking time to read and digest safeguarding developments).

They will also undertake Prevent awareness training.

15.3 Governors

All governors receive training about safeguarding, to make sure they have the knowledge and information needed to perform their functions and understand their responsibilities.

As the chair of governors may be required to act as the 'case manager' in the event that an allegation of abuse is made against the headteacher, they receive training in managing allegations for this purpose.

15.4 Recruitment – interview panels

At least one person conducting any interview for any post at the school will have undertaken safer recruitment training. This will cover, as a minimum, the contents of Keeping Children Safe in Education, and will be in line with local safeguarding procedures.

See appendix 2 of this policy for more information about our safer recruitment procedures.

15.5 Staff who have contact with pupils and families

All staff who have contact with children and families will have supervisions which will provide them with support, coaching and training, promote the interests of children and allow for confidential discussions of sensitive issues.

16. Safer Handling

Our policy on safer handling by staff is set out in a separate policy and acknowledges that staff must only ever use physical intervention as a last resort, and that at all times it must be the minimal force necessary to prevent injury to another person. Physical intervention should only be used if the child is in danger of hurting themselves or another person. We understand that physical intervention of any nature which causes injury or distress to a child may be considered under child protection or disciplinary procedures.

17. Positive Behaviour and Anti-Bullying

Our policies on Positive behaviour and Anti-bullying are set out in separate policies and acknowledges that to allow or condone bullying including online bullying may lead to consideration under child protection procedures.

18. Racists Incidents

Our policy on the promotion of racial equality is set out in a separate policy and acknowledges that repeated racist incidents or a single serious incident may lead to consideration under child protection procedures.

19. Health & Safety

Our policy on Health and Safety is set out in a separate policy and reflects the consideration we give to the protection of our children both within the school environment and when undertaking educational visits.

20. Radicalisation

The current threat of radicalisation in the United Kingdom may include the exploitation of vulnerable

people, to involve them in terrorism or in activity in support of terrorism. The school is clear that this exploitation and radicalisation should be viewed as a safeguarding concern. All pupils and teachers have the right to speak freely and voice their opinions. However, free speech is not an unqualified privilege but is subject to laws and policies governing equality, human rights, community safety and community cohesion. We seek to protect children against the messages of all violent extremism.

When any member of staff has concerns that a pupil may be at risk of radicalisation or involvement in terrorism, they should speak to the DSL. The DSL should report a concern to the Prevent Team by contacting Evelina Gibson (Prevent Education Officer) on 0208148435 or at prevent@enfield.gov.uk. The school will ensure it follows its duty under section 26 Counter-Terrorism and Security Act 2015 (The Prevent Duty). The school will improve staff's awareness of radicalisation through 'Prevent Training'. Our school curriculum promotes the fundamental British values of democracy, the rule of law, individual liberty and mutual respect and tolerance of those with different faiths and beliefs (further information on this can be found on the school website under ethos and values).

21. Monitoring arrangements

This policy will be reviewed at least **annually** by Flora Georgiou/DSL. At every review, it will be approved by the full governing board.

22. Links with other policies

This policy links to the following policies and procedures:

Behaviour

Staff code of conduct

Complaints

Health and safety

Attendance

Online safety

Mobile phone use

Whistle-blowing

Anti-bullying

Opportunities to teach safeguarding

Children are taught about how to keep themselves and others safe, including online. It should be recognised that effective education will be tailored to the specific needs and vulnerabilities of individual children, including children who are victims of abuse, and children with special educational needs or disabilities.

With the support of the PSHE lead relevant topics are included within Relationships Education and Health Education. In teaching these subjects we have regard to the statutory guidance. [We play a crucial role in preventative education. Preventative education is most effective in the context of a whole-school approach that prepares pupils and students for life in modern Britain and creates a culture of zero tolerance for sexism, misogyny/misandry, homophobia, biphobic and sexual violence/harassment.

We have a clear set of values and standards, upheld and demonstrated throughout all aspects of school life. These will be underpinned by the our behaviour policy and pastoral support system, as well as by a planned programme of evidence-based RSHE delivered in regularly timetabled lessons and reinforced throughout the whole curriculum.

Such a programme should be fully inclusive and developed to be age and stage of development appropriate (especially when considering the needs of children with SEND and other vulnerabilities). This program will tackle, at an age-appropriate stage, issues such as:

- healthy and respectful relationships
- boundaries and consent
- stereotyping, prejudice and equality
- body confidence and self-esteem
- how to recognise an abusive relationship, including coercive and controlling behaviour
- the concepts of, and laws relating to - sexual consent, sexual exploitation, abuse, grooming, coercion, harassment, rape, domestic abuse, so called 'honour'-based violence such as forced marriage and Female Genital Mutilation (FGM), and how to access support, and
- what constitutes sexual harassment and sexual violence and why these are always unacceptable.

These appendices are based on the Department for Education's statutory guidance, Keeping Children Safe in Education.

Appendix 1: types of abuse

Abuse, including neglect, and safeguarding issues are rarely standalone events that can be covered by one definition or label. In most cases, multiple issues will overlap. a form of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm or by failing to act to prevent harm. Harm can include ill treatment that is not physical as well as the impact of witnessing ill treatment of others. This can be particularly relevant, for example, in relation to the impact on children of all forms of domestic abuse. Children may be abused in a family or in an institutional or community setting by those known to them or, more rarely, by others. Abuse can take place wholly online, or technology may be used to facilitate offline abuse. Children may be abused by an adult or adults or by another child or children

Physical abuse may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

Emotional abuse is the persistent emotional maltreatment of a child such as to cause severe and adverse effects on the child's emotional development. Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.

Emotional abuse may involve:

Conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person

Not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate

Age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability, as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction

Seeing or hearing the ill-treatment of another

Serious bullying (including cyber-bullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children

Sexual abuse involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving a high level of violence, whether or not the child is aware of what is happening. The activities may involve:

Physical contact, including assault by penetration (for example rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing

Non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse (including via the internet)

Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children.

Neglect is the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy as a result of maternal substance abuse.

Once a child is born, neglect may involve a parent or carer failing to:

Provide adequate food, clothing and shelter (including exclusion from home or abandonment)

Protect a child from physical and emotional harm or danger

Ensure adequate supervision (including the use of inadequate care-givers)

Ensure access to appropriate medical care or treatment

It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

Appendix 2: safer recruitment and DBS checks – policy and procedures

Recruitment and selection process

To make sure we recruit suitable people, we will ensure that those involved in the recruitment and employment of staff to work with children have received appropriate safer recruitment training.

We have put the following steps in place during our recruitment and selection process to ensure we are committed to safeguarding and promoting the welfare of children.

Advertising

When advertising roles, we will make clear:

Our school's commitment to safeguarding and promoting the welfare of children

That safeguarding checks will be undertaken

The safeguarding requirements and responsibilities of the role, such as the extent to which the role will involve contact with children

Whether or not the role is exempt from the Rehabilitation of Offenders Act 1974 and the amendments to the Exceptions Order 1975, 2013 and 2020. If the role is exempt, certain spent convictions and cautions are 'protected', so they do not need to be disclosed, and if they are disclosed, we cannot take them into account

Application forms

Our application forms will:

Include a statement saying that it is an offence to apply for the role if an applicant is barred from engaging in regulated activity relevant to children (where the role involves this type of regulated activity)

Include a copy of, or link to, our child protection and safeguarding policy and our policy on the employment of ex-offenders

➤ [We do not accept CVs as a form of application. We only accept copies of a curriculum vitae alongside an application form. A curriculum vitae on its own will not provide adequate information.](#)

Shortlisting

Our shortlisting process will involve at least 2 people and will:

Consider any inconsistencies and look for gaps in employment and reasons given for them

Explore all potential concerns

Once we have shortlisted candidates, we will ask shortlisted candidates to:

Complete a self-declaration of their criminal record or any information that would make them unsuitable to work with children, so that they have the opportunity to share relevant information and discuss it at interview stage. The information we will ask for includes:

- If they have a criminal history
- Whether they are included on the barred list
- Whether they are prohibited from teaching
- Information about any criminal offences committed in any country in line with the law as applicable in England and Wales
- Any relevant overseas information

Sign a declaration confirming the information they have provided is true

[In addition, as part of the shortlisting process we will carry out an online search as part of our due diligence on the shortlisted candidates. This may help identify any incidents or issues that have happened, and are publicly available online, which we might want to explore with the applicant at interview.](#)

Seeking references and checking employment history

We will obtain references before interview. Any concerns raised will be explored further with referees and taken up with the candidate at interview.

When seeking references we will:

Not accept open references

Liaise directly with referees and verify any information contained within references with the referees

Ensure any references are from the candidate's current employer and completed by a senior person. Where the referee is school based, we will ask for the reference to be confirmed by the headteacher/principal as accurate in respect to disciplinary investigations

Obtain verification of the candidate's most recent relevant period of employment if they are not currently employed

Secure a reference from the relevant employer from the last time the candidate worked with children if they are not currently working with children

Compare the information on the application form with that in the reference and take up any inconsistencies with the candidate

Resolve any concerns before any appointment is confirmed

Consider carrying out an online search on shortlisted candidates to help identify any issues that are publicly available online

Ensure the information confirms whether the referees are satisfied with the applicant's suitability to work with children, and provide the facts (not opinions) of any substantiated safeguarding concerns/allegations that meet the harm threshold.

Referees should not include information about concerns/allegations which are unsubstantiated, unfounded, false, or malicious

Any repeated concerns or allegations which do not meet the harm threshold which have all been found to be false, unfounded, unsubstantiated or malicious should not be included in any reference.

When writing references:

- › Cases in which an allegation was found to be false, unfounded, unsubstantiated or malicious should not be included in employer references.
- › Any repeated concerns or allegations which have all been found to be false, unfounded, unsubstantiated or malicious should also not be included in any reference.
- › Substantiated safeguarding allegations that meet the harm threshold should be included in references, provided that the information is factual and does not include opinions.
- › The referee should only provide substantiated safeguarding concerns/allegations (including a group of low-level concerns about the same individual) that meet the harm threshold in references.
- › Low-level concerns should not be included in references unless they relate to issues which would normally be included in a reference, for example, misconduct or poor performance.
- › It follows that a low-level concern which relates exclusively to safeguarding (and not to misconduct or poor performance) should not be referred to in a reference.

Interview and selection

When interviewing candidates, we will:

Probe any gaps in employment, or where the candidate has changed employment or location frequently, and ask candidates to explain this

Explore any potential areas of concern to determine the candidate's suitability to work with children

Record all information considered and decisions made

Pre-appointment vetting checks

We will record all information on the checks carried out in the school's single central record (SCR). Copies of these checks, where appropriate, will be held in individuals' personnel files. We follow requirements and best practice in retaining copies of these checks, as set out below.

New staff

All offers of appointment will be conditional until satisfactory completion of the necessary pre-employment checks. When appointing new staff, we will:

Verify their identity

Obtain (via the applicant) an enhanced DBS certificate, including barred list information for those who will be engaging in regulated activity (see definition below). We will obtain the certificate before, or as soon as practicable after, appointment, including when using the DBS update service. We will not keep a copy of the certificate for longer than 6 months, but when the copy is destroyed we may still keep a record of the fact that vetting took place, the result of the check and recruitment decision taken

Obtain a separate barred list check if they will start work in regulated activity before the DBS certificate is available

Verify their mental and physical fitness to carry out their work responsibilities

Verify their right to work in the UK. We will keep a copy of this verification for the duration of the member of staff's employment and for 2 years afterwards

Verify their professional qualifications, as appropriate

Ensure they are not subject to a prohibition order if they are employed to be a teacher

Carry out further additional checks, as appropriate, on candidates who have lived or worked outside of the UK. Where available, these will include:

- For all staff, including teaching positions: [criminal records checks for overseas applicants](#)
- For teaching positions: obtaining a letter of professional standing from the professional regulating authority in the country where the applicant has worked

We will ensure that appropriate checks are carried out to ensure that individuals are not disqualified under the 2018 Childcare Disqualification Regulations and Childcare Act 2006. Where we take a decision that an individual falls outside of the scope of these regulations and we do not carry out such checks, we will retain a record of our assessment on the individual's personnel file. This will include our evaluation of any risks and control measures put in place, and any advice sought.

Regulated activity means a person who will be:

Responsible, on a regular basis in a school or college, for teaching, training, instructing, caring for or supervising children; or

Carrying out paid, or unsupervised unpaid, work regularly in a school or college where that work provides an opportunity for contact with children; or

Engaging in intimate or personal care or overnight activity, even if this happens only once and regardless of whether they are supervised or not

Existing staff

In certain circumstances we will carry out all the relevant checks on existing staff as if the individual was a new member of staff. These circumstances are when:

There are concerns about an existing member of staff's suitability to work with children; or

An individual moves from a post that is not regulated activity to one that is; or

There has been a break in service of 12 weeks or more

We will refer to the DBS anyone who has harmed, or poses a risk of harm, to a child or vulnerable adult where:

We believe the individual has engaged in [relevant conduct](#); or

We believe the individual has received a caution or conviction for a relevant (automatic barring either with or without the right to make representations) offence, under the [Safeguarding Vulnerable Groups Act 2006 \(Prescribed Criteria and Miscellaneous Provisions\) Regulations 2009](#); or

We believe the 'harm test' is satisfied in respect of the individual (i.e. they may harm a child or vulnerable adult or put them at risk of harm); and

The individual has been removed from working in regulated activity (paid or unpaid) or would have been removed if they had not left

Agency and third-party staff (supply staff)

We will obtain written notification from any agency or third-party organisation that it has carried out the necessary safer recruitment checks that we would otherwise perform ([or who will be providing education on the school's behalf, including through online delivery](#)). We will also check that the person presenting themselves for work is the same person on whom the checks have been made.

Contractors

We will ensure that any contractor, or any employee of the contractor, who is to work at the school has had the appropriate level of DBS check (this includes contractors who are provided through a PFI or similar contract). This will be:

An enhanced DBS check with barred list information for contractors engaging in regulated activity

An enhanced DBS check, not including barred list information, for all other contractors who are not in regulated activity but whose work provides them with an opportunity for regular contact with children

We will obtain the DBS check for self-employed contractors.

We will not keep copies of such checks for longer than 6 months.

Contractors who have not had any checks will not be allowed to work unsupervised or engage in regulated activity under any circumstances.

We will check the identity of all contractors and their staff on arrival at the school.

For self-employed contractors such as music teachers or sports coaches, we will ensure that appropriate checks are carried out to ensure that individuals are not disqualified under the 2018 Childcare Disqualification Regulations and Childcare Act 2006. Where we decide that an individual falls outside of the scope of these regulations and we do not carry out such checks, we will retain a record of our assessment. This will include our evaluation of any risks and control measures put in place, and any advice sought.

Trainee/student teachers

Where applicants for initial teacher training are salaried by us, we will ensure that all necessary checks are carried out.

Where trainee teachers are fee-funded, we will obtain written confirmation from the training provider that necessary checks have been carried out and that the trainee has been judged by the provider to be suitable to work with children.

In both cases, this includes checks to ensure that individuals are not disqualified under the 2018 Childcare Disqualification Regulations and Childcare Act 2006.

Volunteers

We will:

Never leave an unchecked volunteer unsupervised or allow them to work in regulated activity

Obtain an enhanced DBS check with barred list information for all volunteers who are new to working in regulated activity

Carry out a risk assessment when deciding whether to seek an enhanced DBS check without barred list information for any volunteers not engaging in regulated activity. We will retain a record of this risk assessment

Volunteers do not have to be re-checked if they have already had a DBS check (which should include children's barred list information if engaging in regulated activity). [However, if we have any concerns we will consider obtaining a new DBS check at the level appropriate to the volunteering role.](#)

Ensure that appropriate checks are carried out to ensure that individuals are not disqualified under the 2018 Childcare Disqualification Regulations and Childcare Act 2006. Where we decide that an individual falls outside of the scope of these regulations and we do not carry out such checks, we will retain a record of our assessment. This will include our evaluation of any risks and control measures put in place, and any advice sought

Governors

All governors will have an enhanced DBS check without barred list information.

They will have an enhanced DBS check with barred list information if working in regulated activity.

Staff working in alternative provision settings

Where we place a pupil with an alternative provision provider, we obtain written confirmation from the provider that they have carried out the appropriate safeguarding checks on individuals working there that we would otherwise perform.

Adults who supervise pupils on work experience

When organising work experience, we will ensure that policies and procedures are in place to protect children from harm.

We will also consider whether it is necessary for barred list checks to be carried out on the individuals who supervise a pupil under 16 on work experience. This will depend on the specific circumstances of the work experience, including the nature of the supervision, the frequency of the activity being supervised, and whether the work is regulated activity.

Pupils staying with host families

Where the school makes arrangements for pupils to be provided with care and accommodation by a host family to which they are not related (for example, during a foreign exchange visit), we will request enhanced DBS checks with barred list information on those people.

Where the school is organising such hosting arrangements overseas and host families cannot be checked in the same way, we will work with our partner schools abroad to ensure that similar assurances are undertaken prior to the visit.

Appendix 3: 'safeguarding concerns and allegations made about staff, including supply teachers, volunteers and contractors'.

Section 1: allegations that may meet the harms threshold

There are two levels of concerns and allegations:

1. Concerns / allegations that may meet the harm threshold.
2. Concerns / allegations that do not meet the harm threshold – referred to for the purposes of this guidance as 'low-level concerns'.

Both allegations (i.e something has been stated) and concerns (a worry has arisen) are both relevant.

This section applies to all cases in which it is alleged that a current member of staff, including a supply teacher, volunteer or contractor, has:

Behaved in a way that has harmed a child, or may have harmed a child, and/or

Possibly committed a criminal offence against or related to a child, and/or

Behaved towards a child or children in a way that indicates he or she may pose a risk of harm to children, and/or

Behaved or may have behaved in a way that indicates they may not be suitable to work with children – this includes behaviour taking place both inside and outside of school

low-level concerns:

Low-level concerns can arise in several ways from various sources, e.g. suspicion, complaint or a disclosure

Continue to confidentially share low-level concerns. The headteacher should be the ultimate decision-maker in respect of all low-level concerns, although Ms Williams may wish to consult the DSL to take a more collaborative approach

If you're in any doubt as to whether a low-level concern meets the harm threshold, then consult your local authority designated officer (LADO)

In the examples of adult behaviour that could be a low-level concern, KCSIE has replaced sexualised language with 'humiliating pupils'

Please see Enfield Model staff Code of Conduct for more information.

We will deal with any allegation of abuse quickly, in a fair and consistent way that provides effective child protection while also supporting the individual who is the subject of the allegation.

A 'case manager' will lead any investigation. This will be the DSL/ headteacher, or the chair of governors where the headteacher is the subject of the allegation. The case manager will be identified at the earliest opportunity.

Our procedures for dealing with allegations will be applied with common sense and judgement.

Suspension of the accused until the case is resolved

Suspension of the accused will not be the default position, and will only be considered in cases where there is reason to suspect that a child or other children is/are at risk of harm, or the case is so serious that there might be grounds for dismissal. In such cases, we will only suspend an individual if we have considered all other options available and there is no reasonable alternative.

Based on an assessment of risk, we will consider alternatives such as:

Redeployment within the school so that the individual does not have direct contact with the child or children concerned

Providing an assistant to be present when the individual has contact with children

Redeploying the individual to alternative work in the school so that they do not have unsupervised access to children

Moving the child or children to classes where they will not come into contact with the individual, making it clear that this is not a punishment and parents/carers have been consulted

Temporarily redeploying the individual to another role in a different location, for example to an alternative school or other work for the local authority.

If in doubt, the case manager will seek views from the school's personnel adviser and the designated officer at the local authority, as well as the police and children's social care where they have been involved.

Definitions for outcomes of allegation investigations

Substantiated: there is sufficient evidence to prove the allegation

Malicious: there is sufficient evidence to disprove the allegation and there has been a deliberate act to deceive, or to cause harm to the subject of the allegation

False: there is sufficient evidence to disprove the allegation

Unsubstantiated: there is insufficient evidence to either prove or disprove the allegation (this does not imply guilt or innocence)

Unfounded: to reflect cases where there is no evidence or proper basis which supports the allegation being made

Procedure for dealing with allegations

In the event of an allegation that meets the criteria above, the case manager will take the following steps:

Conduct basic enquiries in line with local procedures to establish the facts to help determine whether there is any foundation to the allegation before carrying on with the steps below

Discuss the allegation with the designated officer at the local authority. This is to consider the nature, content and context of the allegation and agree a course of action, including whether further enquiries are necessary to enable a decision on how to proceed, and whether it is necessary to involve the police and/or children's social care services. (The case manager may, on occasion, consider it necessary to involve the police *before* consulting the designated officer – for example, if the accused individual is deemed to be an immediate risk to children or there is evidence of a possible criminal offence. In such cases, the case manager will notify the designated officer as soon as practicably possible after contacting the police)

Inform the accused individual of the concerns or allegations and likely course of action as soon as possible after speaking to the designated officer (and the police or children's social care services, where necessary). Where the police and/or children's social care services are involved, the case manager will only share such information with the individual as has been agreed with those agencies

Where appropriate (in the circumstances described above), carefully consider whether suspension of the individual from contact with children at the school is justified or whether alternative arrangements such as those outlined above can be put in place. Advice will be sought from the designated officer, police and/or children's social care services, as appropriate

Where the case manager is concerned about the welfare of other children in the community or the individual's family, they will discuss these concerns with the DSL and make a risk assessment of the situation. If necessary, the DSL may make a referral to children's social care

If immediate suspension is considered necessary, agree and record the rationale for this with the designated officer. The record will include information about the alternatives to suspension that have been considered, and why they were rejected. Written confirmation of the suspension will be provided to the individual facing the allegation or concern within 1 working day, and the individual will be given a named contact at the school and their contact details

If it is decided that no further action is to be taken in regard to the subject of the allegation or concern, record this decision and the justification for it and agree with the designated officer what information should be

put in writing to the individual and by whom, as well as what action should follow both in respect of the individual and those who made the initial allegation

If it is decided that further action is needed, take steps as agreed with the designated officer to initiate the appropriate action in school and/or liaise with the police and/or children's social care services as appropriate

Provide effective support for the individual facing the allegation or concern, including appointing a named representative to keep them informed of the progress of the case and considering what other support is appropriate. Support such as trade union representatives, or a colleague and local authority arrangements for welfare counselling or medical advice

Inform the parents or carers of the child/children involved about the allegation as soon as possible if they do not already know (following agreement with children's social care services and/or the police, if applicable). The case manager will also inform the parents or carers of the requirement to maintain confidentiality about any allegations made against teachers (where this applies) while investigations are ongoing. Any parent or carer who wishes to have the confidentiality restrictions removed in respect of a teacher will be advised to seek legal advice

Keep the parents or carers of the child/children involved informed of the progress of the case (only in relation to their child – no information will be shared regarding the staff member)

Make a referral to the DBS where it is thought that the individual facing the allegation or concern has engaged in conduct that harmed or is likely to harm a child, or if the individual otherwise poses a risk of harm to a child

If the school is made aware that the secretary of state has made an interim prohibition order in respect of an individual, we will immediately suspend that individual from teaching, pending the findings of the investigation by the Teaching Regulation Agency.

Where the police are involved, wherever possible the school will ask the police at the start of the investigation to obtain consent from the individuals involved to share their statements and evidence for use in the school's disciplinary process, should this be required at a later point.

Additional considerations for supply teachers and all contracted staff

If there are concerns or an allegation is made against someone not directly employed by the school, such as a supply teacher or contracted staff member provided by an agency, we will take the actions below in addition to our standard procedures.

We will not decide to stop using an individual due to safeguarding concerns without finding out the facts and liaising with our LADO to determine a suitable outcome

The governing board will discuss with the agency whether it is appropriate to suspend the individual, or redeploy them to another part of the school, while the school carries out the investigation

We will involve the agency fully, but the school will take the lead in collecting the necessary information and providing it to the LADO as required

We will address issues such as information sharing, to ensure any previous concerns or allegations known to the agency are taken into account (we will do this, for example, as part of the allegations management meeting or by liaising directly with the agency where necessary)

When using an agency, we will inform them of our process for managing allegations, and keep them updated about our policies as necessary, and will invite the agency's HR manager or equivalent to meetings as appropriate.

Timescales

We will deal with all allegations as quickly and effectively as possible and will endeavour to comply with the following timescales, where reasonably practicable:

Any cases where it is clear immediately that the allegation is unsubstantiated or malicious should be resolved within 1 week

If the nature of an allegation does not require formal disciplinary action, appropriate action should be taken within 3 working days

If a disciplinary hearing is required and can be held without further investigation, this should be held within 15 working days

However, these are objectives only and where they are not met, we will endeavour to take the required action as soon as possible thereafter.

Specific actions

Action following a criminal investigation or prosecution

The case manager will discuss with the local authority's designated officer whether any further action, including disciplinary action, is appropriate and, if so, how to proceed, taking into account information provided by the police and/or children's social care services.

Conclusion of a case where the allegation is substantiated

If the allegation is substantiated and the individual is dismissed or the school ceases to use their services, or the individual resigns or otherwise ceases to provide their services, the school will make a referral to the DBS for consideration of whether inclusion on the barred lists is required.

If the individual concerned is a member of teaching staff, the school will consider whether to refer the matter to the Teaching Regulation Agency to consider prohibiting the individual from teaching.

Individuals returning to work after suspension

If it is decided on the conclusion of a case that an individual who has been suspended can return to work, the case manager will consider how best to facilitate this.

The case manager will also consider how best to manage the individual's contact with the child or children who made the allegation, if they are still attending the school.

Unsubstantiated, unfounded, false or malicious reports

If a report is:

Determined to be unsubstantiated, unfounded, false or malicious, the DSL will consider the appropriate next steps. If they consider that the child and/or person who made the allegation is in need of help, or the allegation may have been a cry for help, a referral to children's social care may be appropriate

Shown to be deliberately invented, or malicious, the school will consider whether any disciplinary action is appropriate against the individual(s) who made it

Unsubstantiated, unfounded, false or malicious allegations

If an allegation is:

Determined to be unsubstantiated, unfounded, false or malicious, the LADO and case manager will consider the appropriate next steps. If they consider that the child and/or person who made the allegation is in need of help, or the allegation may have been a cry for help, a referral to children's social care may be appropriate

Shown to be deliberately invented, or malicious, the school will consider whether any disciplinary action is appropriate against the individual(s) who made it

Confidentiality and information sharing

The school will make every effort to maintain confidentiality and guard against unwanted publicity while an allegation is being investigated or considered.

The case manager will take advice from the LADO, police and children's social care services, as appropriate, to agree:

- Who needs to know about the allegation and what information can be shared
- How to manage speculation, leaks and gossip, including how to make parents or carers of a child/children involved aware of their obligations with respect to confidentiality
- What, if any, information can be reasonably given to the wider community to reduce speculation
- How to manage press interest if, and when, it arises

Record-keeping

The case manager will maintain clear records about any case where the allegation or concern meets the criteria above and store them on the individual's confidential personnel file for the duration of the case.

The records of any allegation that, following an investigation, is found to be malicious or false will be deleted from the individual's personnel file (unless the individual consents for the records to be retained on the file).

For all other allegations (which are not found to be malicious or false), the following information will be kept on the file of the individual concerned:

- A clear and comprehensive summary of the allegation
- Details of how the allegation was followed up and resolved
- Notes of any action taken, decisions reached and the outcome
- A declaration on whether the information will be referred to in any future reference

In these cases, the school will provide a copy to the individual, in agreement with children's social care or the police as appropriate.

Where records contain information about allegations of sexual abuse, we will preserve these for the Independent Inquiry into Child Sexual Abuse (IICSA), for the term of the inquiry. We will retain all other records at least until the individual has reached normal pension age, or for 10 years from the date of the allegation if that is longer.

References

When providing employer references, we will:

Not refer to any allegation that has been found to be false, unfounded, unsubstantiated or malicious, or any repeated allegations which have all been found to be false, unfounded, unsubstantiated or malicious

Include substantiated allegations, provided that the information is factual and does not include opinions

Learning lessons

After any cases where the allegations are *substantiated*, the case manager will review the circumstances of the case with the local authority's designated officer to determine whether there are any improvements that we can make to the school's procedures or practice to help prevent similar events in the future.

This will include consideration of (as applicable):

- Issues arising from the decision to suspend the member of staff
- The duration of the suspension
- Whether or not the suspension was justified
- The use of suspension when the individual is subsequently reinstated. We will consider how future investigations of a similar nature could be carried out without suspending the individual

For all other cases, the case manager will consider the facts and determine whether any improvements can be made.

Non-recent allegations

Abuse can be reported, no matter how long ago it happened.

We will report any non-recent allegations made by a child to the LADO in line with our local authority's procedures for dealing with non-recent allegations.

Where an adult makes an allegation to the school that they were abused as a child, we will advise the individual to report the allegation to the police.

Section 2: concerns that do not meet the harm threshold

This section applies to all concerns (including allegations) about members of staff, including supply teachers, volunteers and contractors, which do not meet the harm threshold set out in section 1 above.

Low-level concerns may arise in several ways and from a number of sources. For example: suspicion; complaint; or disclosure made by a child, parent or other adult within or outside of the organisation; or as a result of vetting checks undertaken

We recognise the importance of responding to and dealing with any concerns in a timely manner to safeguard the welfare of children.

Definition of low-level concerns

At Eversley we promote an open and transparent culture in which all concerns about all adults working in or on behalf of the school (including supply teachers, volunteers and contractors) are dealt with promptly and appropriately.

Creating a culture in which **all** concerns about adults are shared responsibly and with the right person, recorded and dealt with appropriately, is critical to:

- enable us to identify inappropriate, problematic or concerning behaviour early
- minimise the risk of abuse, and
- ensure that adults working in or on behalf of the school are clear about professional boundaries and act within these boundaries, and in accordance with the ethos and values of our school.

The term 'low-level' concern does not mean that it is insignificant. A low-level concern is any concern – no matter how small, and even if no more than causing a sense of unease or a 'nagging doubt' - that an adult working in or on behalf of the school may have acted in a way that:

- is inconsistent with the staff code of conduct, including inappropriate conduct outside of work and
- does not meet the harm threshold or is otherwise not serious enough to consider a referral to the LADO.

Examples of such behaviour could include, but are not limited to:

- being over friendly with children
- having favourites
- taking photographs of children on their mobile phone, contrary to school policy
- engaging with a child on a one-to-one basis in a secluded area or behind a closed door, or
- humiliating children.

Sharing low-level concerns

All low-level concerns are shared initially with the DSL Flora Georgiou and DSL Deputy (Hayley Kirkpatrick) who is also our SMHL.

The DSL will then should inform the headteacher of all the low-level concerns and in a timely fashion according to the nature of each particular low-level concern.

The headteacher is the ultimate decision maker in respect of all low-level concerns, however this is done in consultation with the DSL to take a more collaborative decision-making approach.

We recognise the importance of creating a culture of openness, trust and transparency to encourage all staff to share low-level concerns so that they can be addressed appropriately.

We will create this culture by:

Ensuring staff are clear about what appropriate behaviour is, and are confident in distinguishing expected and appropriate behaviour from concerning, problematic or inappropriate behaviour, in themselves and others

Empowering staff to share any low-level concerns as per section 7.7 of this policy

Empowering staff to self-refer

Addressing unprofessional behaviour and supporting the individual to correct it at an early stage

Providing a responsive, sensitive and proportionate handling of such concerns when they are raised

Helping to identify any weakness in the school's safeguarding system

Responding to low-level concerns

If the concern is raised via a third party, the headteacher will collect evidence where necessary by speaking:

Directly to the person who raised the concern, unless it has been raised anonymously

To the individual involved and any witnesses

The headteacher will use the information collected to categorise the type of behaviour and determine any further action, in line with the school's staff code of conduct

Keeping Children Safe in Education also links to this report for more information [Developing and implementing a low-level concerns policy: A guide for organisations which work with children](#)]

Record keeping

All low-level concerns will be recorded in writing. In addition to details of the concern raised, records will include the context in which the concern arose, any action taken and the rationale for decisions and action taken.

Records will be:

Kept confidential, held securely and comply with the DPA 2018 and UK GDPR

Reviewed so that potential patterns of concerning, problematic or inappropriate behaviour can be identified. Where a pattern of such behaviour is identified, we will decide on a course of action, either through our disciplinary procedures or, where a pattern of behaviour moves from a concern to meeting the harms threshold as described in section 1 of this appendix, we will refer it to the designated officer at the local authority

Consideration is also be given to whether there are wider cultural issues within the school that enabled the behaviour to occur and where appropriate policies will be revised, or extra training delivered to minimise the risk of it happening again.

Retained at least until the individual leaves employment at the school

Where a low-level concern relates to a supply teacher or contractor, we will notify the individual's employer, so any potential patterns of inappropriate behaviour can be identified.

References

We will not include low-level concerns in references unless:

The concern (or group of concerns) has met the threshold for referral to the designated officer at the local authority and is found to be substantiated; and/or

The concern (or group of concerns) relates to issues which would ordinarily be included in a reference, such as misconduct or poor performance

Appendix 4: specific safeguarding issues

All staff should have an awareness of safeguarding issues that can put children at risk of harm. Behaviours linked to issues such as drug taking and/or alcohol misuse, deliberately missing education, serious violence (including that linked to county lines), radicalisation and consensual and non-consensual sharing of nude and semi-nude images and/or videos can be signs that children are at risk. Below are some safeguarding issues all staff should be aware of. Additional information on these safeguarding issues and information on other safeguarding issues is included in Annex B of KSCIE 2022.

Children missing from education

A child going missing from education, particularly repeatedly, can be a warning sign of a range of safeguarding issues. This might include abuse or neglect, such as sexual abuse or exploitation or child criminal exploitation, or issues such as mental health problems, substance abuse, radicalisation, FGM or forced marriage.

There are many circumstances where a child may become missing from education, but some children are particularly at risk. These include children who:

- › Are at risk of harm or neglect
- › Are at risk of forced marriage or FGM
- › Come from Gypsy, Roma, or Traveller families
- › Come from the families of service personnel
- › Go missing or run away from home or care
- › Are supervised by the youth justice system
- › Cease to attend a school
- › Come from new migrant families

We will follow our procedures for unauthorised absence and for dealing with children who go missing from education, particularly on repeat occasions, to help identify the risk of abuse and neglect, including sexual exploitation, and to help prevent the risks of going missing in future. This includes informing the local authority if a child leaves the school without a new school being named, and adhering to requirements with respect to sharing information with the local authority, when applicable, when removing a child's name from the admission register at non-standard transition points.

Staff will be trained in signs to look out for and the individual triggers to be aware of when considering the risks of potential safeguarding concerns which may be related to being missing, such as travelling to conflict zones, FGM and forced marriage.

If a staff member suspects that a child is suffering from harm or neglect, we will follow local child protection procedures, including with respect to making reasonable enquiries. We will make an immediate referral to the local authority children's social care team, and the police, if the child is suffering or likely to suffer from harm, or in immediate danger.

Child criminal exploitation

Child criminal exploitation (CCE) is a form of abuse where an individual or group takes advantage of an imbalance of power to coerce, control, manipulate or deceive a child into criminal activity, in exchange for something the victim needs or wants, and/or for the financial or other advantage of the perpetrator or facilitator, and/or through violence or the threat of violence.

The abuse can be perpetrated by males or females, and children or adults. It can be a one-off occurrence or a series of incidents over time, and range from opportunistic to complex organised abuse.

The victim can be exploited even when the activity appears to be consensual. It does not always involve physical contact and can happen online. For example, young people may be forced to work in cannabis

factories, coerced into moving drugs or money across the country (county lines), forced to shoplift or pickpocket, or to threaten other young people.

Indicators of CCE can include a child:

Appearing with unexplained gifts or new possessions

Associating with other young people involved in exploitation

Suffering from changes in emotional wellbeing

Misusing drugs and alcohol

Going missing for periods of time or regularly coming home late

Regularly missing school or education

Not taking part in education

If a member of staff suspects CCE, they will discuss this with the DSL. The DSL will trigger the local safeguarding procedures, including a referral to the local authority's children's social care team and the police, if appropriate.

Indicators which may signal that a child is at risk from, or involved with, serious violent crime may include:

Increased absence from school

Change in friendships or relationships with older individuals or groups

Significant decline in performance

Signs of self-harm or a significant change in wellbeing

Signs of assault or unexplained injuries

Unexplained gifts or new possessions (this could indicate that the child has been approached by, or is involved with, individuals associated with criminal networks or gangs and may be at risk of criminal exploitation (see above))

Risk factors which increase the likelihood of involvement in serious violence include:

Being male

Having been frequently absent or permanently excluded from school

Having experienced child maltreatment

Having been involved in offending, such as theft or robbery

Staff will be aware of these indicators and risk factors. If a member of staff has a concern about a pupil being involved in, or at risk of, serious violence, they will report this to the DSL.

Child sexual exploitation

Child sexual exploitation (CSE) is a form of child sexual abuse where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child into sexual activity, in exchange for something the victim needs or wants and/or for the financial advantage or increased status of the perpetrator or facilitator. It may, or may not, be accompanied by violence or threats of violence.

The abuse can be perpetrated by males or females, and children or adults. It can be a one-off occurrence or a series of incidents over time, and range from opportunistic to complex organised abuse.

The victim can be exploited even when the activity appears to be consensual. Children or young people who are being sexually exploited may not understand that they are being abused. They often trust their abuser and may be tricked into believing they are in a loving, consensual relationship.

CSE can include both physical contact (penetrative and non-penetrative acts) and non-contact sexual activity. It can also happen online. For example, young people may be persuaded or forced to share sexually explicit images of themselves, have sexual conversations by text, or take part in sexual activities using a webcam.

CSE may also occur without the victim's immediate knowledge, for example through others copying videos or images.

In addition to the CCE indicators above, indicators of CSE can include a child:

Having an older boyfriend or girlfriend

Suffering from sexually transmitted infections or becoming pregnant

If a member of staff suspects CSE, they will discuss this with the DSL. The DSL will trigger the local safeguarding procedures, including a referral to the local authority's children's social care team and the police, if appropriate.

Domestic abuse

Domestic abuse can encompass a wide range of behaviours and may be a single incident or a pattern of incidents. That abuse can be, but is not limited to, psychological, physical, sexual, financial or emotional. Children can be victims of domestic abuse. They may see, hear, or experience the effects of abuse at home and/or suffer domestic abuse in their own intimate relationships (teenage relationship abuse). All of which can have a detrimental and long-term impact on their health, well-being, development, and ability to learn.

Children can witness and be adversely affected by domestic abuse and/or violence at home where it occurs between family members. In some cases, a child may blame themselves for the abuse or may have had to leave the family home as a result.

Types of domestic abuse include intimate partner violence, abuse by family members, teenage relationship abuse and child/adolescent to parent violence and abuse. Anyone can be a victim of domestic abuse, regardless of gender, age, ethnicity, socioeconomic status, sexuality or background, and domestic abuse can take place inside or outside of the home.

Exposure to domestic abuse and/or violence can have a serious, long-lasting emotional and psychological impact on children.

Children who witness domestic abuse are also victims

Witnessing domestic abuse can have a lasting impact on children

Children can be victims, and perpetrators, in their own relationships too

The abuse can be physical, sexual, financial, psychological or emotional

Added that extra-familial harms can include sexual harassment and domestic abuse in their own intimate relationships (teenage relationships)

Types of domestic abuse that harm can include ill treatment that isn't physical, as well as witnessing the ill treatment of others - for example, the impact of all forms of domestic abuse on children.

If police are called to an incident of domestic abuse and any children in the household have experienced the incident, the police will inform the key adult in school (usually the designated safeguarding lead) before the child or children arrive at school the following day.

The DSL will provide support according to the child's needs and update records about their circumstances.

Homelessness

Being homeless or being at risk of becoming homeless presents a real risk to a child's welfare.

The DSL and deputies will be aware of contact details and referral routes in to the local housing authority so they can raise/progress concerns at the earliest opportunity (where appropriate and in accordance with local procedures).

Where a child has been harmed or is at risk of harm, the DSL will also make a referral to children's social care.

So-called 'honour-based' abuse (including FGM and forced marriage)

So-called 'honour-based' abuse (HBA) encompasses incidents or crimes committed to protect or defend the honour of the family and/or community, including FGM, forced marriage, and practices such as breast ironing.

Abuse committed in this context often involves a wider network of family or community pressure and can include multiple perpetrators.

All forms of HBA are abuse and will be handled and escalated as such. All staff will be alert to the possibility of a child being at risk of HBA or already having suffered it. If staff have a concern, they will speak to the DSL, who will activate local safeguarding procedures.

FGM

The DSL will make sure that staff have access to appropriate training to equip them to be alert to children affected by FGM or at risk of FGM.

Section 7.3 of this policy sets out the procedures to be followed if a staff member discovers that an act of FGM appears to have been carried out or suspects that a pupil is at risk of FGM.

Indicators that FGM has already occurred include:

- › A pupil confiding in a professional that FGM has taken place
- › A mother/family member disclosing that FGM has been carried out
- › A family/pupil already being known to social services in relation to other safeguarding issues
- › A girl:
 - Having difficulty walking, sitting or standing, or looking uncomfortable
 - Finding it hard to sit still for long periods of time (where this was not a problem previously)
 - Spending longer than normal in the bathroom or toilet due to difficulties urinating
 - Having frequent urinary, menstrual or stomach problems
 - Avoiding physical exercise or missing PE
 - Being repeatedly absent from school, or absent for a prolonged period
 - Demonstrating increased emotional and psychological needs – for example, withdrawal or depression, or significant change in behaviour
 - Being reluctant to undergo any medical examinations
 - Asking for help, but not being explicit about the problem
 - Talking about pain or discomfort between her legs

Potential signs that a pupil may be at risk of FGM include:

- › The girl's family having a history of practising FGM (this is the biggest risk factor to consider)
- › FGM being known to be practised in the girl's community or country of origin
- › A parent or family member expressing concern that FGM may be carried out
- › A family not engaging with professionals (health, education or other) or already being known to social care in relation to other safeguarding issues
- › A girl:
 - Having a mother, older sibling or cousin who has undergone FGM
 - Having limited level of integration within UK society
 - Confiding to a professional that she is to have a "special procedure" or to attend a special occasion to "become a woman"
 - Talking about a long holiday to her country of origin or another country where the practice is prevalent, or parents/carers stating that they or a relative will take the girl out of the country for a prolonged period

- Requesting help from a teacher or another adult because she is aware or suspects that she is at immediate risk of FGM
- Talking about FGM in conversation – for example, a girl may tell other children about it (although it is important to take into account the context of the discussion)
- Being unexpectedly absent from school
- Having sections missing from her 'red book' (child health record) and/or attending a travel clinic or equivalent for vaccinations/anti-malarial medication

The above indicators and risk factors are not intended to be exhaustive.

Forced marriage

Forcing a person into marriage is a crime. A forced marriage is one entered into without the full and free consent of one or both parties and where violence, threats, or any other form of coercion is used to cause a person to enter into a marriage. Threats can be physical or emotional and psychological.

Staff will receive training around forced marriage and the presenting symptoms. We are aware of the 'one chance' rule, i.e. we may only have one chance to speak to the potential victim and only one chance to save them.

If a member of staff suspects that a pupil is being forced into marriage, they will speak to the pupil about their concerns in a secure and private place. They will then report this to the DSL.

The DSL will:

- › Speak to the pupil about the concerns in a secure and private place
- › Activate the local safeguarding procedures and refer the case to the local authority's designated officer
- › Seek advice from the Forced Marriage Unit on 020 7008 0151 or fm@fco.gov.uk
- › Refer the pupil to an education welfare officer, pastoral tutor, learning mentor, or school counsellor, as appropriate

Preventing radicalisation

Radicalisation refers to the process by which a person comes to support terrorism and extremist ideologies associated with terrorist groups

Extremism is vocal or active opposition to fundamental British values, such as democracy, the rule of law, individual liberty, and mutual respect and tolerance of different faiths and beliefs. This also includes calling for the death of members of the armed forces

Terrorism is an action that:

- Endangers or causes serious violence to a person/people;
- Causes serious damage to property; or
- Seriously interferes or disrupts an electronic system

The use or threat of terrorism must be designed to influence the government or to intimidate the public and is made for the purpose of advancing a political, religious or ideological cause.

Schools have a duty to prevent children from being drawn into terrorism. The DSL will undertake Prevent awareness training and make sure that staff have access to appropriate training to equip them to identify children at risk.

We will assess the risk of children in our school being drawn into terrorism. This assessment will be based on an understanding of the potential risk in our local area, in collaboration with our local safeguarding partners and local police force.

We will ensure that suitable internet filtering is in place, and equip our pupils to stay safe online at school and at home.

There is no single way of identifying an individual who is likely to be susceptible to an extremist ideology. Radicalisation can occur quickly or over a long period.

Staff will be alert to changes in pupils' behaviour.

The government website [Educate Against Hate](#) and charity [NSPCC](#) say that signs that a pupil is being radicalised can include:

- › Refusal to engage with, or becoming abusive to, peers who are different from themselves
- › Becoming susceptible to conspiracy theories and feelings of persecution
- › Changes in friendship groups and appearance
- › Rejecting activities they used to enjoy
- › Converting to a new religion
- › Isolating themselves from family and friends
- › Talking as if from a scripted speech
- › An unwillingness or inability to discuss their views
- › A sudden disrespectful attitude towards others
- › Increased levels of anger
- › Increased secretiveness, especially around internet use
- › Expressions of sympathy for extremist ideologies and groups, or justification of their actions
- › Accessing extremist material online, including on Facebook or Twitter
- › Possessing extremist literature
- › Being in contact with extremist recruiters and joining, or seeking to join, extremist organisations

Children who are at risk of radicalisation may have low self-esteem, or be victims of bullying or discrimination. It is important to note that these signs can also be part of normal teenage behaviour – staff should have confidence in their instincts and seek advice if something feels wrong.

Staff should **always** take action if they are worried.

The DSL should report a concern to the Prevent Team by 8 contacting Evelina Gibson (Prevent Education Officer) on 0208148435 or at prevent@enfield.gov.uk. The school will ensure it follows its duty under section 26 Counter-Terrorism and Security Act 2015 (The Prevent Duty). The school will improve staff's awareness of radicalisation through 'Prevent Training'. Our school curriculum promotes the fundamental British values of democracy, the rule of law, individual liberty and mutual respect and tolerance of those with different faiths and beliefs (further information on this can be found on the school website under ethos and values).

Further information on the school's measures to prevent radicalisation are set out in other school policies and procedures, including, behaviour policy, anti-bullying, online/e-safety policy.

Child-on child abuse

Child on child abuse is when children abuse other children. This type of abuse can take place inside and outside of school and online.

Child-on-Child abuse is most likely to include, but may not be limited to:

Bullying (including cyber-bullying, prejudice-based and discriminatory bullying)

Abuse in intimate personal relationships between peers

Physical abuse such as hitting, kicking, shaking, biting, hair pulling, or otherwise causing physical harm (this may include an online element which facilitates, threatens and/or encourages physical abuse)

Sexual violence, such as rape, assault by penetration and sexual assault (this may include an online element which facilitates, threatens and/or encourages sexual violence)

Sexual harassment, such as sexual comments, remarks, jokes and online sexual harassment, which may be standalone or part of a broader pattern of abuse

Causing someone to engage in sexual activity without consent, such as forcing someone to strip, touch themselves sexually, or to engage in sexual activity with a third party

Consensual and non-consensual sharing of nudes and semi nudes images and/or videos (also known as sexting or youth produced sexual imagery)

Upskirting, which typically involves taking a picture under a person's clothing without their permission, with the intention of viewing their genitals or buttocks to obtain sexual gratification, or cause the victim humiliation, distress or alarm

Initiation/hazing type violence and rituals (this could include activities involving harassment, abuse or humiliation used as a way of initiating a person into a group and may also include an online element)

Abuse in intimate relationships between children is sometimes known as 'teenage relationship abuse.'

Where children abuse their peers online, this can take the form of, for example, abusive, harassing, and misogynistic messages; the non-consensual sharing of indecent images, especially around chat groups; and the sharing of abusive images and pornography, to those who don't want to receive such content.

If staff have any concerns about child-on-child abuse, or a child makes a report to them, they will follow the procedures set out in section 7 of this policy, as appropriate. In particular, section 7.8 and 7.9 set out more detail about our school's approach to this type of abuse.

Child on Child sexual violence and sexual harassment

Sexual violence and sexual harassment can occur between two or more children of any age and sex, from primary through to secondary stage and into college. It can occur also through a group of children sexually assaulting or sexually harassing a single child or group of children. Sexual violence and sexual harassment exist on a continuum and may overlap; they can occur online and face-to-face (both physically and verbally) and are never acceptable.

At Eversley we are aware of the importance of:

- making clear that there is a zero-tolerance approach to sexual violence and sexual harassment, that it is never acceptable, and it will not be tolerated. It should never be passed off as "banter", "just having a laugh", "a part of growing up" or "boys being boys". Failure to do so can lead to a culture of unacceptable behaviour, an unsafe environment and in worst case scenarios a culture that normalises abuse, leading to children accepting it as normal and not coming forward to report it
- recognising, acknowledging, and understanding the scale of harassment and abuse and that even if there are no reports it does not mean it is not happening, it may be the case that it is just not being reported
- challenging physical behaviour (potentially criminal in nature) such as grabbing bottoms, breasts and genitalia, pulling down trousers, flicking bras and lifting up skirts. Dismissing or tolerating such behaviours risks normalising them

Children who are victims of sexual violence and sexual harassment wherever it happens, may find the experience stressful and distressing. This will, in all likelihood, adversely affect their educational attainment and will be exacerbated if the alleged perpetrator(s) attends the same school.

Whilst any report of sexual violence or sexual harassment should be taken seriously, staff should be aware it is more likely that girls will be the victims of sexual violence and sexual harassment and more likely it will be perpetrated by boys.

Children with special educational needs and disabilities (SEND) are also three times more likely to be abused than their peers.

Ultimately, it is essential that all victims are reassured that they are being taken seriously and that they will be supported and kept safe.

At Eversley:

There is a zero tolerance approach to sexual violence and sexual harassment at Eversley. Failure to have a zero tolerance can lead to a culture of unacceptable behaviour and in the worst case scenario, a culture that normalises abuse.

All staff working with children are advised to maintain an attitude of 'it could happen here', and this is especially important when considering child-on-child abuse.

Recognising that even if there are no reports, it doesn't mean it's not happening

Challenging physical behaviour (potentially criminal in nature) such as grabbing bottoms, breasts and genitalia, pulling down trousers, flicking bras and lifting up skirts. Dismissing or tolerating such behaviours risks normalising them.

There is a shared understanding of the following:

- Children with SEND are 3 times more likely to be abused than their peers
- That harmful sexual behaviour (HSB) including:
 - can occur online and/or face-to-face and can also occur simultaneously between the 2
 - Both the ages and stages of development of the children are critical factors
 - The DSL and their deputies should have a good understanding of HSB, which could form part of their safeguarding training
 - Children displaying HSB have often experienced their own abuse and trauma, and it's important they're offered appropriate support
- Preventing abuse notably the DSL should:
 - Discuss the local response to sexual violence and sexual harassment with police and local authority children's social care colleagues to prepare the school's or college's policies (especially the child protection policy) and responses, and
 - Be confident that they know what local specialist support is available to support all children involved (victims and alleged perpetrators) in sexual violence and sexual harassment, and be confident as to how to access this support

Confidentiality and anonymity

Regarding confidentiality:

- Staff shouldn't promise confidentiality as it might be in the victim's best interest to seek advice and guidance
- If a victim asks the school not to tell anyone about the sexual violence or sexual harassment, there's no definitive answer. This is because even if a victim doesn't consent to sharing information, staff may still lawfully share it if there's another legal basis under the UK GDPR that applies
- The DSL will have to balance the victim's wishes against their duty to protect the victim and other children
- The DSL should consider that:
 - Parents or carers should normally be informed (unless this would put the victim at greater risk)
 - The basic safeguarding principle is: if a child is at risk of harm, is in immediate danger, or has been harmed, a referral should be made to local authority children's social care, and

- Rape, assault by penetration and sexual assault are crimes. Where a report of rape, assault by penetration or sexual assault is made, this should be referred to the police. Whilst the age of criminal responsibility is 10, if the alleged perpetrator is under 10, the starting principle of referring to the police remains

Regarding anonymity, Eversley should:

- Be aware of the criminal process in general where an allegation of sexual violence or sexual harassment is progressing through the criminal justice system
- Do all they reasonably can to protect the anonymity of any children involved in any report of sexual violence or sexual harassment, for example, carefully considering which staff should know about the report and any support for the children involved
- Consider the potential impact of social media in facilitating the spreading of rumours and exposing victims' identities

Discipline and the alleged perpetrator(s)

- The DSL should take the lead role
- You can take disciplinary action whilst other investigations are ongoing e.g. by the police
- The fact another body is investigating/has investigated an incident doesn't (in itself) prevent you from coming to your own conclusion about what happened and impose a penalty accordingly. This is a matter for you and you should consider it on a case-by-case basis
- You should consider whether:
 - Taking action would prejudice an investigation and/or subsequent prosecution - liaise with the police and/or LA children's social care to determine this
 - There are circumstances that make it unreasonable/irrational for you to reach your own view about what happened
- You can, and should, take disciplinary action and still provide support at the same time if necessary

Working with parents and carers

- You will (in most cases) engage with both the victim's and alleged perpetrator's parents or carers when there's been a report of sexual violence (this might not be necessary in relation to sexual harassment, but decide it on a case-by-case basis)
- The exception is if there's reason to believe informing a parent or carer will put the child at additional risk
- You should think carefully about what information you provide about the other child involved, and when. Make sure you work with relevant agencies to ensure your approach to information sharing is consistent
- It's good practice to:
 - Meet the victim's parent or carers with the victim to discuss what's being put in place to safeguard and support them, and how the report will progress
 - Meet with the alleged perpetrator's parents or carers to discuss what's being put in place that will impact them, e.g. moving them out of classes with the victim. You should explain the reason behind any decision
- The DSL would attend these meetings - decide what other agencies should attend on a case-by-case basis

Safeguarding other children

You should consider supporting children (and adult students) who have witnessed sexual violence, especially rape and assault by penetration

- You should do all you can to make sure the victim, alleged perpetrator(s) and any witnesses are not being bullied or harassed
- Social media is likely to play a role in the fall out from any incident/alleged incident, including for potential contact between the victim, alleged perpetrator(s) and friends from either side
- You should consider school transport as part of your risk assessment as a potentially vulnerable place for a victim or alleged perpetrator(s)
- It's important to keep your policies, processes and curriculum constantly under review to protect all children
- Reports of sexual violence and/or harassment may:
 - Point to environmental/systematic problems that could be addressed by updating policies, processes and the curriculum
 - Reflect wider issues in the local area

Extra clarity that:

- It should be clear to all victims that the law on child-on-child abuse is there to protect them, not criminalise them
- You should consider intra familial harms and any necessary support for siblings following a report of sexual violence and/or harassment
- Schools, as relevant agencies, should be part of discussions with statutory safeguarding partners to agree to the levels for the different types of assessment as part of local arrangements
- If there are delays in the criminal process, it will be important for the DSL to work closely with the police (and other agencies as required) whilst protecting children and/or taking any disciplinary measures against the alleged perpetrator(s) – this is to make sure the school's actions don't jeopardise the police investigation. If you have any questions about the investigation, you should contact the police
- When supporting the victim, you should:
 - Regularly review decisions and actions, and update relevant policies with lessons learnt
 - Look out for potential patterns of concerning, problematic or inappropriate behaviour, and where you identify a pattern, decide on a course of action
 - Consider if there are wider cultural issues within the school that enabled inappropriate behaviour to occur and whether extra teaching time and/or staff training could minimise the risk of it happening again
- Children who have experienced sexual violence can display a wide range of responses, so schools should remain alert to the possible challenges of detecting those signs and show sensitivity to their needs

Sexual violence and sexual harassment can occur:

Between 2 children of any age and sex

Through a group of children sexually assaulting or sexually harassing a single child or group of children

Online and face to face (both physically and verbally)

Sexual violence and sexual harassment exist on a continuum and may overlap.

Children who are victims of sexual violence and sexual harassment will likely find the experience stressful and distressing. This will, in all likelihood, adversely affect their educational attainment and will be exacerbated if the alleged perpetrator(s) attends the same school.

If a victim reports an incident, it is essential that staff make sure they are reassured that they are being taken seriously and that they will be supported and kept safe. A victim should never be given the impression that

they are creating a problem by reporting sexual violence or sexual harassment. Nor should a victim ever be made to feel ashamed for making a report.

Some groups are potentially more at risk. Evidence shows that girls, children with SEN and/or disabilities, and lesbian, gay, bisexual and transgender (LGBT) children are at greater risk.

Staff should be aware of the importance of:

Challenging inappropriate behaviours

Making clear that sexual violence and sexual harassment is not acceptable, will never be tolerated and is not an inevitable part of growing up

Challenging physical behaviours (potentially criminal in nature), such as grabbing bottoms, breasts and genitalia, pulling down trousers, flicking bras and lifting up skirts. Dismissing or tolerating such behaviours risks normalising them

If staff have any concerns about sexual violence or sexual harassment, or a child makes a report to them, they will follow the procedures set out in section 7 of this policy, as appropriate. In particular, section 7.8 and 7.9 set out more detail about our school's approach to this type of abuse.

Serious violence

When referring to sexual violence we are referring to sexual offences under the Sexual Offences Act 2003as described below:

Rape: A person (A) commits an offence of rape if: he intentionally penetrates the vagina, anus or mouth of another person (B) with his penis, B does not consent to the penetration and A does not reasonably believe that B consents.

Assault by Penetration: A person (A) commits an offence if: s/he intentionally penetrates the vagina or anus of another person (B) with a part of her/his body or anything else, the penetration is sexual, B does not consent to the penetration and A does not reasonably believe that B consents.

Sexual Assault: A person (A) commits an offence of sexual assault if: s/he intentionally touches another person (B), the touching is sexual, B does not consent to the touching and A does not reasonably believe that B consents. (NOTE - Schools and colleges should be aware that sexual assault covers a very wide range of behaviour so a single act of kissing someone without consent or touching someone's bottom/breasts/genitalia without consent, can still constitute sexual assault).

Causing someone to engage in sexual activity without consent: A person (A) commits an offence if: s/he intentionally causes another person (B) to engage in an activity, the activity is sexual, B does not consent to engaging in the activity, and A does not reasonably believe that B consents. (NOTE – this could include forcing someone to strip, touch themselves sexually, or to engage in sexual activity with a third party).

Sexual harassment

When referring to sexual harassment we mean 'unwanted conduct of a sexual nature' that can occur online and offline and both inside and outside of school/college. When we reference sexual harassment, we do so in the context of child-on-child sexual harassment.

Sexual harassment is likely to: violate a child's dignity, and/or make them feel intimidated, degraded or humiliated and/or create a hostile, offensive or sexualised environment.

Whilst not intended to be an exhaustive list, sexual harassment can include:

- sexual comments, such as: telling sexual stories, making lewd comments, making sexual remarks about clothes and appearance and calling someone sexualised names
- sexual "jokes" or taunting
- physical behaviour, such as: deliberately brushing against someone, interfering with someone's clothes.

As a school we will be considering when any of this crosses a line into sexual violence – it is important to talk to and consider the experience of the victim.

- displaying pictures, photos or drawings of a sexual nature

- upskirting (this is a criminal offence¹³⁸), and
- online sexual harassment.

This may be standalone, or part of a wider pattern of sexual harassment and/or sexual violence.

It may include:

- consensual and non-consensual sharing of nude and semi-nude images and/or videos.
- Taking and sharing nude photographs of U18s is a criminal offence.
- *UKCIS* *Sharing nudes and semi-nudes: advice for education settings working with children and young people* provides detailed advice for schools and colleges.
- sharing of unwanted explicit content
- sexualised online bullying
- unwanted sexual comments and messages, including, on social media or sexual exploitation; coercion and threats, and
- coercing others into sharing images of themselves or performing acts they're not comfortable with online.

As a school we consider sexual harassment in broad terms. Sexual harassment (as set out above) creates a culture that, if not challenged, can normalise inappropriate behaviours and provide an environment that may lead to sexual violence.

Harmful sexual behaviour

Children's sexual behaviour exists on a wide continuum, ranging from normal and developmentally expected to inappropriate, problematic, abusive and violent. Problematic, abusive and violent sexual behaviour is developmentally inappropriate and may cause developmental damage. A useful umbrella term is "harmful sexual behaviour" (HSB). HSB can occur online and/or face-to-face and can also occur simultaneously between the two. HSB should be considered in a child protection context.

When considering HSB, both ages and the stages of development of the children are critical factors. Sexual behaviour between children can be considered harmful if one of the children is much older, particularly if there is more than two years' difference or if one of the children is pre-pubescent and the other is not. However, a younger child can abuse an older child, particularly if they have power over them, for example, if the older child is disabled or smaller in stature.

The designated safeguarding lead has undertaken Brooks Training in order to have a good understanding of HSB.

At Eversley, we understand that HSB can, in some cases, progress on a continuum. Addressing inappropriate behaviour can be an important intervention that helps prevent problematic, abusive and/or violent behaviour in the future. Children displaying HSB have often experienced their own abuse and trauma. It is important that they are offered appropriate support.

Preventing abuse

We will work with our local safeguarding partners and know what support can be accessed when sexual violence or sexual harassment has occurred.

- Contact the police
- Contact MASH Enfield
- Contact the parents of the victim and alleged perpetrator

What is consent?

Consent is about having the freedom and capacity to choose. Consent to sexual activity may be given to one sort of sexual activity but not another, e.g. to vaginal but not anal sex or penetration with conditions, such as wearing a condom. Consent can be withdrawn at any time during sexual activity and each time activity occurs. Someone consents to vaginal, anal or oral penetration only if s/he agrees by choice to that penetration and has the freedom and capacity to make that choice.

- a child under the age of 13 can never consent to any sexual activity
- the age of consent is 16
- sexual intercourse without consent is rape.

Further information about consent can be found here: [Rape Crisis England & Wales -Sexual consent](#)

Responding to reports of sexual violence and sexual harassment

Children at Eversley are clear on the systems of reporting abuse.

They understand who is a trusted adult in school and have chosen a named person. They can put their concerns in their class worry box and know that the DSL is here to keep them safe from harm.

They have posters in their classrooms 'see it, say it, stop it' to guide them on reporting abuse.

We adopt a calm, considered and appropriate response to any reports.

Any decisions are made on a case-by-case basis, with the designated safeguarding lead (or a deputy) taking a leading role and using our professional judgement, supported by other agencies, such as local authority children's social care and the police as required.

The DSL and deputies have studied the case studies provided.

Support and resources

Child Exploitation and Online Protection command: CEOP is a law enforcement agency which aims to keep children and young people safe from sexual exploitation and abuse. Online sexual abuse can be reported on their website and a report made to one of its Child Protection Advisors

The **NSPCC** provides a helpline for professionals at 0808 800 5000 and help@nspcc.org.uk. The helpline provides expert advice and support for school and college staff and will be especially useful for the designated safeguarding lead (and their deputies)

Support from specialist sexual violence sector organisations such as **Rape Crisis** or **The Survivors Trust**

The **Anti-Bullying Alliance** has developed guidance for schools about Sexual and sexist bullying.

Online: We recognise that sexual violence and sexual harassment occurring online (either in isolation or in connection with face-to-face incidents) can introduce a number of complex factors. Amongst other things, this can include widespread abuse or harm across a number of social media platforms that leads to repeat victimisation. Online concerns can be especially complicated and support is available from:

- The UK Safer Internet Centre provides an online safety helpline for professionals at 0344 381 4772 and helpline@saferinternet.org.uk. The helpline provides expert advice and support for school staff with regard to online safety issues
- Internet Watch Foundation: If the incident/report involves sexual images or videos that have been made and circulated online, the victim can be supported to get the images removed by the Internet Watch Foundation (IWF)
- Childline/IWF Report Remove is a free tool that allows children to report nude or sexual images and/or videos of themselves that they think might have been shared online

- UKCIS Sharing nudes and semi-nudes advice: Advice for education settings working with children and young people on responding to reports of children sharing non-consensual nude and semi-nude images and/or videos (also known as sexting and youth produced sexual imagery)
- Thinkuknow from NCA-CEOP provides support for the children's workforce, parents and carers on staying safe online
- LGFL 'Undressed' provided schools advice about how to teach young children about being tricked into getting undressed online in a fun way without scaring them or explaining the motives of sex offenders.

The immediate response to a report

Responding to the report

We understand that children may not find it easy to tell staff about their abuse verbally. Children can show signs or act in ways that they hope adults will notice and react to. In some cases, the victim may not make a direct report. For example, a friend may make a report, or a member of school staff may overhear a conversation that suggests a child has been harmed or a child's own behaviour might indicate that something is wrong. Staff understand that if they have any concerns about a child's welfare, they should act on them immediately rather than wait to be told.

In training and updates staff are aware that the initial response to a report from a child is incredibly important. Staff understand that how they respond to a report can encourage or undermine the confidence of future victims of sexual violence and sexual harassment to report or come forward.

All victims are reassured that they are being taken seriously, regardless of how long it has taken them to come forward, and that they will be supported and kept safe. Abuse that occurs online or outside of the school will not be downplayed and will be treated equally seriously.

A victim will never be given the impression that they are creating a problem by reporting sexual violence or sexual harassment. Nor will a victim ever be made to feel ashamed for making a report. It is important to explain that the law is in place to protect children and young people rather than criminalise them, and this will be explained in such a way that avoids alarming or distressing them.

We ensure that at Eversley all staff are trained to manage a report:

- if possible, managing reports with two members of staff present, (preferably one of them being the designated safeguarding lead or a deputy)
- careful management and handling of reports that include an online element. Including being aware of searching screening and confiscation advice (for schools) and UKCIS Sharing nudes and semi-nudes: advice for education settings working with children and young people. The key consideration is for staff not to view or forward illegal images of a child. The highlighted advice provides more details on what to do when viewing an image is unavoidable. In some cases, it may be more appropriate to confiscate any devices to preserve any evidence and hand them to the police for inspection
- not promising confidentiality at this initial stage as it is very likely a concern will have to be shared further (for example, with the designated safeguarding lead (or a deputy) or local authority children's social care) to discuss next steps. Staff should only share the report with those people who are necessary in order to progress it. It is important that the victim understands what the next steps will be and who the report will be passed to
- recognising that a child is likely to disclose to someone they trust: this could be anyone on the school staff. It is important that the person to whom the child discloses recognises that the child has placed them in a position of trust. They should be supportive and respectful of the child
- recognising that an initial disclosure to a trusted adult may only be the first incident reported, rather than representative of a singular incident and that trauma can impact memory and so children may not be able to recall all details or timeline of abuse
- keeping in mind that certain children may face additional barriers to telling someone because of their vulnerability, disability, sex, ethnicity, and/or sexual orientation
- listening carefully to the child, reflecting back, using the child's language, being non-judgemental, being clear about boundaries and how the report will be progressed, not asking leading questions and only prompting the

child where necessary with open questions – where, when, what, etc. It is important to note that whilst leading questions should be avoided, staff can ask children if they have been harmed and what the nature of that harm was

- considering the best way to make a record of the report. Best practice is to wait until the end of the report and immediately write up a thorough summary. This allows the staff member to devote their full attention to the child and to listen to what they are saying. It may be appropriate to make notes during the report (especially if a second member of staff is present). However, if making notes, staff should be conscious of the need to remain engaged with the child and not appear distracted by the note taking. Either way, it is essential a written record is made
- only recording the facts as the child presents them. The notes should not reflect the personal opinion of the note taker. Notes of such reports could become part of a statutory assessment by local authority children's social care and/or part of a criminal investigation, and
- informing the designated safeguarding lead (or a deputy), as soon as practically possible, if the designated safeguarding lead (or a deputy) is not involved in the initial report.

Considering confidentiality and anonymity

Confidentiality

Staff taking a report should never promise confidentiality as it is very likely that it will be in the best interests of the victim to seek advice and guidance from others in order to provide support and engage appropriate agencies.

The school should only engage staff and agencies who are required to support the children involved and/or be involved in any investigation.

The victim may ask the school not to tell anyone about the sexual violence or sexual harassment. There are no easy or definitive answers when a victim makes this request. If the victim does not give consent to share information, staff may still lawfully share it, if there is another legal basis under the UK GDPR that applies. For example, the public task basis may apply, where the overall purposes is to perform a public interest task or exercise official authority, and the task or authority has a clear basis in law. Advice should be sought from the designated safeguarding lead (or a deputy), who should consider the following:

- parents or carers should normally be informed (unless this would put the victim at greater risk)
- the basic safeguarding principle is: if a child is at risk of harm, is in immediate danger, or has been harmed, a referral should be made to local authority children's social care, and
 - rape, assault by penetration and sexual assaults are crimes. Where a report of rape, assault by penetration or sexual assault is made, this should be referred to the police. Whilst the age of criminal responsibility is ten, if the alleged perpetrator is under ten, the starting principle of referring to the police remains. The police will take a welfare, rather than a criminal justice approach, in these cases.

Ultimately, the designated safeguarding lead (or a deputy) will have to balance the victim's wishes against their duty to protect the victim and other children.

If the designated safeguarding lead (or a deputy) decide to go ahead and make a referral to local authority children's social care and/or a report to the police against the victim's wishes, this should be handled extremely carefully, the reasons should be explained to the victim and appropriate specialist support should be offered.

Additional information on confidentiality and information sharing is available at Safeguarding Practitioners Information Sharing Advice and NSPCC: Information sharing and confidentiality for practitioners.

Anonymity

Where an allegation of sexual violence or sexual harassment is progressing through the criminal justice system, the school should be aware of anonymity, witness support, and the criminal process in general so they can offer support and act appropriately.

Relevant information can be found in: CPS: Safeguarding Children as Victims and Witnesses.

As a matter of effective safeguarding practice, we will do all we reasonably can to protect the anonymity of any children involved in any report of sexual violence or sexual harassment. Amongst other things, this will mean carefully considering, based on the nature of the report, which staff should know about the report and any support that will be put in place for the children involved.

We also consider the potential impact of social media in facilitating the spreading of rumours and exposing victims' identities. The unique challenges regarding social media along with potential support. In addition, the principles described in Childnet's cyberbullying guidance could be helpful.

Risk assessment

When there has been a report of sexual violence, the designated safeguarding lead (or a deputy) will make an immediate risk and needs assessment. Where there has been a report of sexual harassment, the need for a risk assessment should be considered on a case-by-case basis. The risk and needs assessment for a report of sexual violence should consider:

- the victim, especially their protection and support
- whether there may have been other victims
- the alleged perpetrator(s)
- all the other children, (and, if appropriate, adult students and staff) at the school, especially any actions that are appropriate to protect them from the alleged perpetrator(s), or from future harms, and
- The time and location of the incident, and any action required to make the location safer.

Risk assessments should be recorded (paper or electronic) and should be kept under review. At all times, we will be actively considering the risks posed to all our pupils and students and put adequate measures in place to protect them and keep them safe.

The designated safeguarding lead (or a deputy) will ensure we are engaging with local authority children's social care and specialist services as required. Where there has been a report of sexual violence, it is likely that professional risk assessments by social workers and or sexual violence specialists will be required. The above risk assessment is not intended to replace the detailed assessments of expert professionals. Any such professional assessments should be used to inform the school's approach to supporting and protecting our pupils and students and updating their own risk assessment.

Action following a report of sexual violence and/or sexual harassment

What to consider

As set out above, sexual violence and sexual abuse can happen anywhere, and all staff working with children are advised to maintain an attitude of 'it could happen here'. The school will be aware of and respond appropriately to all reports and concerns about sexual violence and/or sexual harassment both online and offline, including those that have happened outside of the school.

The designated safeguarding lead (or a deputy) is likely to have a complete safeguarding picture and be the most appropriate person to advise on the initial response by the school.

Important considerations will include:

- the wishes of the victim in terms of how they want to proceed. This is especially important in the context of sexual violence and sexual harassment. Victims should be given as much control as is reasonably possible over decisions regarding how any investigation will be progressed and any support that they will be offered. This will however need to be balanced with the school's duty and responsibilities to protect other children
- the nature of the alleged incident(s), including whether a crime may have been committed and/or whether HSB has been displayed
- the ages of the children involved
- the developmental stages of the children involved
- any power imbalance between the children. For example, is/are the alleged perpetrator(s) significantly older, more mature, confident and well known social standing? Does the victim have a disability or learning difficulty?

- if the alleged incident is a one-off or a sustained pattern of abuse (sexual abuse can be accompanied by other forms of abuse and a sustained pattern may not just be of a sexual nature)
- that sexual violence and sexual harassment can take place within intimate personal relationships between children
- importance of understanding intra familial harms and any necessary support for siblings following incidents
- are there ongoing risks to the victim, other children, adult students or school staff and
- other related issues and wider context, including any links to child sexual exploitation and child criminal exploitation.

As always when concerned about the welfare of a child, all staff will act in the best interests of the child. In all cases, the school will follow general safeguarding principles as set out throughout this policy. Immediate consideration will be given as to how best to support and protect the victim and the alleged perpetrator(s) (and any other children involved/impacted).

Children sharing a classroom: Initial considerations when the report is made

Any report of sexual violence is likely to be traumatic for the victim. It is essential that all victims are reassured that they are being taken seriously and that they will be supported and kept safe. A victim should never be given the impression that they are creating a problem by reporting sexual violence or sexual harassment. Nor should a victim ever be made to feel ashamed for making a report.

However, reports of rape and assault by penetration are likely to be especially difficult for the victim, and close proximity to the alleged perpetrator(s) is likely to be especially distressing.

Whilst the school establishes the facts of the case and starts the process of liaising with local authority children's social care and the police, the alleged perpetrator(s) should be removed from any classes they share with the victim. The school or college should also carefully consider how best to keep the victim and alleged perpetrator(s) a reasonable distance apart on school or college premises (including during any before or after school-based activities) and on transport to and from the school or college, where appropriate. These actions are in the best interests of all children involved and should not be perceived to be a judgement on the guilt of the alleged perpetrator(s). For other reports of sexual violence and sexual harassment, the proximity of the victim and alleged perpetrator(s) and considerations regarding shared classes, sharing school or college premises and school or college transport, should be considered immediately. In all cases, the initial report should be carefully evaluated, reflecting the considerations set out at paragraph 485. The wishes of the victim, the nature of the allegations and the protection of all children in the school or college will be especially important when considering any immediate actions.

Checking the identity and suitability of visitors

All visitors will be required to verify their identity to the satisfaction of staff and to leave their belongings, including their mobile phone(s), in a safe place during their visit.

If the visitor is unknown to the setting, we will check their credentials and reason for visiting before allowing them to enter the setting. Visitors should be ready to produce identification.

Visitors are expected to sign the visitors' e-book and wear a visitor's badge.

Visitors to the school who are visiting for a professional purpose, such as educational psychologists and school improvement officers, will be asked to show photo ID and:

- Will be asked to show their DBS certificate, which will be checked alongside their photo ID; or
- The organisation sending the professional, such as the LA or educational psychology service, will provide prior written confirmation that an appropriate level of DBS check has been carried out

All other visitors, including visiting speakers, will be accompanied by a member of staff at all times. We will not invite into the school any speaker who is known to disseminate extremist views, and will carry out appropriate checks to ensure that any individual or organisation using school facilities is not seeking to disseminate extremist views or radicalise pupils or staff.

Non-collection of children

If a child is not collected at the end of the session/day, we will:

Hold onto the pupil at the school office and phone the designated adult. The class teacher will remain with the pupil until a senior member of staff arrives.
